

Notes forming part of the standalone financial statements

1 Overview

Housing Development Finance Corporation Limited ('HDFC' or 'the Corporation' or 'the Company') was incorporated in 1977 as the first specialised Mortgage Company domiciled in India as a limited company having its Corporate office at HDFC House, H T Parekh Marg, Churchgate, Mumbai 400 020. The principal business is providing finance to individuals, corporates and developers for the purchase, construction, development and repair of houses, apartments and commercial properties in India. The business is conducted through its branches in India and its overseas offices at London, Singapore and Dubai supported by a network of agents for sourcing loans as well as deposits. HDFC is the holding company for investments in its associates and subsidiary companies. The Corporation is a public limited company and its shares are listed on the Bombay Stock Exchange (BSE), India, and the National Stock Exchange (NSE), India, and the Corporation's Synthetic INR Denominated bonds are listed on the London Stock Exchange.

2 Basis of Preparation and Presentation

2.1 Statement of Compliance and Basis of Preparation and Presentation

The Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity are prepared and presented in the format prescribed in the Division III of Schedule III to the Companies Act, 2013 (the "Act"). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows". The Balance Sheet, Statement of Profit and Loss, Statement of Cash Flow and Statement of Changes in Equity are together referred as the financial statement of the Corporation.

The standalone financial statements of the Corporation are prepared in accordance with the Companies (Indian Accounting Standards) Rules, 2015 under Section 133 of the Companies Act, 2013 and relevant amendment rules issued thereafter ("Ind AS").

The financial statements are prepared and presented on going concern basis and the relevant provisions of the ACT and the guidelines and directives issued by the Reserve Bank of India (RBI) and National Housing Bank ("NHB") to the extent applicable.

Amounts in the financial statements are presented in Indian Rupees in Crore rounded off to two decimal places as permitted by Schedule III to the Act. Per share data is presented in Indian Rupee to two decimal places. The Corporation presents its Balance Sheet in the order of liquidity. An analysis regarding recovery or settlement within 12 months after the reporting date and more than 12 months after the reporting date is presented in Note 39.

Accounting policies are consistently applied except where a newly-issued Ind AS initially adopted or a revision to an existing Ind AS requires a change in the accounting policy.

2.2 Functional and Presentation Currency

The financial statements are presented in Indian Rupees (₹) which is the functional and the presentation currency of the Corporation and all values are rounded to the nearest Crore with two decimals, except when otherwise indicated.

2.3 Basis of Measurement

The financial statements have been prepared on historical cost basis except for certain financial instruments that are measured at fair values.

A historical cost is a measure of value used for accounting in which the price of an asset on the balance sheet is based on its historical cost, it is generally fair value of consideration given in exchange for goods and services at the time of transaction or original cost when acquired by the Corporation.

Notes forming part of the standalone financial statements (Continued)

Fair value is the price that likely to be received on sell of an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Corporation takes into account the characteristics of the asset or liability that market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in the financial statements is determined on such a basis, except for share based payment transactions that are within the scope of Ind AS 102 Share based Payment, leasing transactions that are within the scope of Ind AS 116 Leases.

Fair value measurements under Ind AS are categorised into fair value hierarchy based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the Corporation can access on measurement date.
- Level 2 inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 where unobservable inputs are used for the valuation of assets or liabilities.

2.4 Use of Estimates and Judgements

The preparation of the financial statements in conformity with Indian Accounting Standards (“Ind AS”) requires the management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Accounting estimates could change from period to period. Actual results could differ from those estimates. Revisions to accounting estimates are recognised prospectively. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise. Some of the areas involving significant estimation / judgement are determination of Expected Credit Loss, fair valuation of Investments, Income taxes, share based payments and employee benefits.

3 Significant Accounting Policies

3.1 Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Corporation and the revenue can be reliably measured and there exists reasonable certainty of its recovery.

3.1.1 Interest

Interest income on financial instruments is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate (“EIR”) applicable.

The EIR is the rate that exactly discounts estimated future cash flows of the financial instrument through the expected life of the financial instrument or, where appropriate, a shorter period, to the net carrying amount. The future cash flows are estimated taking into account all the contractual terms of the instrument.

The calculation of the EIR includes all fees paid or received between parties to the contract that are incremental and directly attributable to the specific lending arrangement, transaction costs, and all other premiums or discounts. For financial assets measured at fair value through profit and loss (“FVTPL”), transaction costs are recognised in the statement of profit and loss at initial recognition.

Notes forming part of the standalone financial statements (Continued)

Interest income/expenses is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets/liabilities (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance). For credit-impaired financial assets, interest income is calculated by applying the EIR to the amortised cost of the credit-impaired financial assets (i.e. the gross carrying amount less the allowance for expected credit losses).

3.1.2 Dividend Income

Dividend income is recognised when the Corporation's right to receive dividend is established.

3.1.3 Fee and Commission Income

Fee and commission income include fees other than those that are an integral part of EIR. The Corporation recognises the fee and commission income in accordance with the terms of the relevant contracts / agreement and when it is probable that the Corporation will collect the consideration.

3.1.4 Rental Income

Income from operating leases are recognised in the statement of profit and loss as per the contractual rentals unless another systematic basis is more representative of the time pattern in which benefits are derived from the leased assets.

3.1.5 Other Income

Other Income represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

3.2 Financial Instruments

3.2.1 Fair Valuation of Investments (other than Investment in Subsidiaries and Associates)

Some of the Corporation's Investments (other than Investment in Subsidiaries and Associates) are measured at fair value. In determining the fair value of such Investments, the Corporation uses quoted prices (unadjusted) in active markets for identical assets or based on inputs which are observable either directly or indirectly. However in certain cases, the Corporation adopts valuation techniques and inputs which are not based on market data. When Market observable information is not available, the Corporation has applied appropriate valuation techniques and inputs to the valuation model.

The Corporation uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Information about the valuation techniques and inputs used in determining the fair value of Investments are disclosed in Note 44.3.2.

3.2.2 Recognition and Initial Measurement

All financial assets and liabilities, (including financial instruments received in settlement of erstwhile loan assets) with the exception of loans, debt securities, deposits and borrowings are initially recognised on the trade date, i.e., the date that the Corporation becomes a party to the contractual provisions of the instrument. Loans are recognised when fund transfer is initiated or disbursement cheque is issued to the customer. The Corporation recognises debt securities, deposits and borrowings when funds are received by the Corporation.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs and revenues that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities measured at FVTPL) are added to or deducted from the fair value of

Notes forming part of the standalone financial statements (Continued)

the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs and revenues directly attributable to the acquisition of financial assets or financial liabilities measured at FVTPL are recognised immediately in the statement of profit and loss.

If the transaction price differs from fair value at initial recognition, the Corporation recognise for such difference as follows:

- if fair value is evidenced by a quoted price in an active market for an identical asset or liability or based on a valuation technique that uses only data from observable markets, then the difference is recognised in the statement of profit and loss on initial recognition (i.e. day 1 profit or loss);
- in all other cases, the fair value will be adjusted to defer the difference between the fair value at initial recognition and the transaction price.

After initial recognition, the deferred gain or loss will be recognised in the statement of profit and loss on a rational basis, only to the extent that it arises from a change in a factor (including time) that market participants would take into account when pricing the asset or liability.

3.2.3 Classification and Subsequent Measurement of Financial Assets and Liabilities

3.2.3.1 *Financial Assets*

The Corporation classifies and measures all its financial assets based on the business model for managing the assets and the asset's contractual terms, either at:

- Amortised cost
- Fair Value through other comprehensive income
- Fair Value through Profit and Loss

3.2.3.1.1 **Amortised Cost**

The Corporation classifies and measures cash and bank balances, Loans, Trade receivable, certain debt investments and other financial assets at amortised cost if the following condition is met:

- Financial Assets that are held within a business model whose objective is to hold financial assets in order to collect the contractual cash flows, and that have contractual cash flows that are SPPI;

3.2.3.1.2 **Fair Value through Other Comprehensive Income ("FVOCI")**

The Corporation classifies and measures certain debt instruments at FVOCI when the investments are held within a business model, the objective of which is achieved by both, collecting contractual cash flows and selling the financial instruments and the contractual terms of the financial instruments meet the Solely Payment of Principal and Interest on principal amount outstanding ('SPPI') test.

The Corporation measures all equity investments at fair value through profit or loss, unless the investments is not for trading and the Corporation's management has elected to classify irrevocably some of its equity instruments at FVOCI, when such instruments meet the definition of Equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

3.2.3.1.3 **Fair Value through Profit and Loss ("FVTPL")**

Financial assets at FVTPL are:

- assets with contractual cash flows that are not SPPI; and/or

Notes forming part of the standalone financial statements (Continued)

- assets that are held in a business model other than held to collect contractual cash flows or held to collect and sell; or
- assets designated at FVTPL using the fair value option.

These assets are measured at fair value, with any gains/losses arising on remeasurement is recognised in the statement of profit and loss.

3.2.4 Evaluation of Business Model

Classification and measurement of financial instruments depends on the results of the Solely Payments of Principal and Interest on the principal amount outstanding (“SPPI”) and the business model test (refer note). The Corporation determines the business model at a level that reflects how the Corporation’s financial instruments are managed together to achieve a particular business objective.

The Corporation monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Corporation’s continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those instruments.

3.2.4.1 Business Model Test

An assessment of business model for managing financial assets is fundamental to the classification of a financial asset. The Corporation determines the business model at a level that reflects how financial assets are managed together to achieve a particular business objective. The Corporation’s business model does not depend on management’s intentions for an individual instrument, therefore the business model assessment is performed at a higher level of aggregation rather than on an instrument-by-instrument basis.

The Corporation considers all relevant information and evidence available when making the business model assessment such as:

- how the performance of the business model and the financial assets held within that business model are evaluated and reported to the Corporation’s key management personnel;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way in which those risks are managed; and
- how managers of the business are compensated (e.g. whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected).

At initial recognition of a financial asset, the Corporation determines whether newly recognised financial assets are part of an existing business model or whether they reflect a new business model. The Corporation reassesses its business model at each reporting period to determine whether the business model has changed since the preceding period. For the current and prior reporting period the Corporation has not identified a change in its business model.

The loans initiated by the Corporation and outstanding include loans for which an option is given to a third party to acquire loans by way of assignment. This is consequent to an arrangement with the party that sources loans for the Corporation and has an option to acquire through assignment, a fixed percentage of the aggregate value of loans sourced by it for the Corporation at a predetermined price. As per the arrangement, loans assigned are substituted by newly sourced loans which ensures contractual cash flows are collected by the Corporation. Accordingly, all such outstanding loans have been classified at amortised cost.

Notes forming part of the standalone financial statements (Continued)

3.2.4.1.1 Solely Payments of Principal and Interest (“SPPI”) on the principal amount outstanding

For an asset to be classified and measured at amortised cost or at FVOCI, its contractual terms should give rise to cash flows that meet SPPI test.

For the purpose of SPPI test, principal is the fair value of the financial asset at initial recognition. That principal amount may change over the life of the financial asset (e.g. if there are repayments of principal). Interest consists of consideration for the time value of money, for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin.

Contractual terms that introduce exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement, such as exposure to changes in equity prices or commodity prices, do not give rise to contractual cash flows that are SPPI, such financial assets are either classified as fair value through profit & loss account or fair value through other comprehensive income.

3.2.4.1.2 Subsequent Measurement and Gain and Losses

Financial Assets at Amortised Cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income and impairment loss are recognised in statement of profit and loss. Any gain or loss on derecognition is recognised in statement of profit and loss.

Debt Instrument at FVOCI

These assets are subsequently measured at fair value. Interest income and impairment loss are recognised in statement of profit and loss. Any gain or loss on subsequent measurement is recognised in OCI and on derecognition the cumulative gain or loss recognised in OCI will be recycled to statement of profit and loss.

Equity Instrument at FVOCI

Gains and losses on equity instruments measured at FVOCI are recognised in other comprehensive income and never recycled to the statement of profit and loss. Dividends are recognised in profit or loss as dividend income when the right to receive payment has been established, except when the Corporation benefits from such proceeds as a recovery of whole or part of the cost of the instrument, in which case, such gains are recorded in OCI. Equity instruments at FVOCI are fair valued at each reporting date and not subject to an impairment assessment.

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gain or losses, including any interest or dividend income, are recognised in the statement of profit and loss.

3.2.4.1.3 Reclassifications

If the business model under which the Corporation holds financial assets changes, the financial assets affected are reclassified. The classification and measurement requirements related to the new category apply prospectively from the first day of the first reporting period following the change in business model that result in reclassifying the Corporation’s financial assets.

3.2.4.2 Financial Liabilities and Equity Instruments

3.2.4.2.1 ***Classification as Debt or Equity***

Debt and equity instruments that are issued are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

Notes forming part of the standalone financial statements (Continued)

A financial liability is a contractual obligation to deliver cash or another financial asset or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the Corporation or a contract that will or may be settled in the Corporation's own equity instruments and is a non-derivative contract for which the Corporation is or may be obliged to deliver a variable number of its own equity instruments, or a derivative contract over own equity that will or may be settled other than by the exchange of a fixed amount of cash (or another financial asset) for a fixed number of the Corporation's own equity instruments.

3.2.4.2.2 *Equity Instruments*

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Corporation are recognised at the face value and proceeds received in excess of the face value are recognised as Securities Premium.

3.2.4.2.3 *Subsequent Measurement and Gain and Losses*

Financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense is recognised in statement of profit and loss. Any gain or loss on derecognition is recognised in statement of profit and loss.

3.2.5 *Impairment and Write-off*

The Corporation recognises loss allowances for Expected Credit Losses on the following financial instruments that are not measured at FVTPL:

- Loans and advances to customers;
- Other financial assets;
- Debt instruments measured at amortised cost and at FVOCI;
- Loan commitments; and
- Financial guarantees.

Equity instruments are measured at fair value and not subject to an impairment loss.

ECL is required to be measured through a loss allowance at an amount equal to:

- 12-month ECL, i.e. loss allowance on default events on the financial instrument that are possible within 12 months after the reporting date, (referred to as Stage 1); or
- Lifetime ECL, i.e. lifetime ECL that results from all possible default events over the life of the financial instrument, (referred to as Stage 2 and Stage 3).

A loss allowance for lifetime ECL is required for a financial instrument if the credit risk on that financial instrument has increased significantly since initial recognition. For all other financial instruments, ECL is measured at an amount equal to the 12-month ECL.

The Corporation has established a policy to perform an assessment at the end of each reporting period whether a financial instrument's credit risk has increased significantly since initial recognition by considering the change in the risk of default occurring over the remaining life of the financial instruments.

Based on the above process, the Corporation categorises its loans into Stage 1, Stage 2 and Stage 3 as described below:

Stage 1: When loans are first recognised, the Corporation recognises an allowance based on 12 months ECL.

Notes forming part of the standalone financial statements (Continued)

Stage 1 loans also include facilities where the credit risk has improved and the loan has been reclassified from Stage 2 to Stage 1.

Stage 2: When a loan has shown a significant increase in credit risk since origination, the Corporation records an allowance for the life time expected credit losses. Stage 2 loans also include facilities, where the credit risk has improved and the loan has been reclassified from Stage 3 to Stage 2.

Stage 3: When loans are considered credit-impaired, the Corporation records an allowance for the life time expected credit losses.

For financial assets for which the Corporation has no reasonable expectations of recovering either the entire outstanding amount, or a proportion thereof, the gross carrying amount of the financial asset is reduced. This is considered a (partial) derecognition of the financial asset.

3.2.6 Determination of Expected Credit Loss (“ECL”)

The measurement of impairment losses (ECL) across all categories of financial assets requires judgement.

In particular, the estimation of the amount and timing of future cash flows based on Corporation’s historical experience and collateral values when determining impairment losses along with the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

Elements of the ECL models that are considered accounting judgments and estimates include:

- Bifurcation of the financial assets into different portfolios when ECL is assessed on a collective basis.
- Corporation’s criteria for assessing if there has been a significant increase in credit risk. (Refer Note)
- Development of ECL models, including choice of inputs / assumptions used.

The various inputs used and the process followed by the Corporation in measurement of ECL has been detailed in Note.

3.2.6.1 Measurement of Expected Credit Losses

The Corporation calculates ECL based on probability-weighted scenarios to measure expected cash shortfalls, discounted at an approximation to the portfolio EIR. A cash shortfall is a difference between the cash flows that are due to the Corporation in accordance with the contract and the cash flows that the Corporation expects to receive.

When estimating ECL for undrawn loan commitments, the Corporation estimates the expected portion of the loan commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected shortfalls in cash flows if the loan is drawn down. The expected cash shortfalls are discounted at an approximation to the expected EIR on the loan.

The Corporation’s ECL for financial guarantee is estimated based on the present value of the expected payments to reimburse the holder for a credit loss that it incurs.

The Corporation measures ECL on an individual basis, or on a collective basis for portfolios of loans that share similar economic risk characteristics. The measurement of the loss allowance is based on the present value of the asset’s expected cash flows using the asset’s original EIR, regardless of whether it is measured on an individual basis or a collective basis.

Notes forming part of the standalone financial statements (Continued)

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

Exposure at Default (EAD) is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities after considering the credit conversion factor (for Stage 1 and Stage 2 assets), and accrued interest from missed payments.

Probability of Default (PD) is the probability of whether borrowers will default on their obligations which are calculated based on historical default rate summary of past years using origination vintage analysis.

Loss Given Default (LGD) is an estimate of the loss from a financial asset given that a default occurs. The LGD is computed using the Corporation's own loss and recovery experience. It is usually expressed as a percentage of the EAD.

3.2.6.2 **Significant Increase in Credit Risk**

The Corporation monitors all financial assets, including loan commitments and financial guarantee contracts issued that are subject to impairment requirements, to assess whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk the Corporation measures the loss allowance based on lifetime rather than 12-month ECL. The Corporation's accounting policy is not to use the practical expedient that financial assets with 'low' credit risk at the reporting date are deemed not to have had a significant increase in credit risk. As a result the Corporation monitors all financial assets, issued loan commitments and financial guarantee contracts that are subject to impairment for a significant increase in credit risk.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Corporation compares the risk of a default occurring on the financial instrument at the reporting date based on the remaining maturity of the instrument with the risk of a default occurring that was anticipated for the remaining maturity at the current reporting date when the financial instrument was first recognised. In making this assessment, the Corporation considers both quantitative and qualitative information that is reasonable and supportable, including historical experience that is available without undue cost or effort.

The qualitative factors that indicate a significant increase in credit risk are reflected in PD models on a timely basis. However, the Corporation still considers separately some qualitative factors to assess if credit risk has increased significantly. For corporate lending, there is a particular focus on assets that are included on a 'watch list'. Given an exposure is on a watch list once, there is a concern that the creditworthiness of the specific counterparty has deteriorated. ECL assessment for watch list accounts is done on a case by case approach after considering the probability of weighted average in a different recovery scenario. For individual loans the Corporation considers the expectation of forbearance, payment holidays, and events such as unemployment, bankruptcy, divorce, or death.

Given that a significant increase in credit risk since initial recognition is a relative measure, a given change, in absolute terms, in the PD is more significant for a financial instrument with a lower initial PD than compared to a financial instrument with a higher PD.

As a back-stop when a financial asset becomes 30 days past due and overdue more than 1 calendar month, but not Stage 3; in addition to SICR accounts, the Corporation considers that a significant increase in credit risk has occurred and the asset is classified in stage 2 of the impairment model, i.e. the loss allowance is measured as the lifetime ECL.

Notes forming part of the standalone financial statements (Continued)

3.2.6.3 *Credit-Impaired Financial Assets*

A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Credit-impaired financial assets are referred to as Stage 3 assets. Evidence of credit-impairment includes observable data about the following events:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- restructuring of loans due to financial difficulty of the borrowers;
- the disappearance of an active market for a security because of financial difficulties; or
- the purchase of a financial asset at a deep discount that reflects the incurred credit losses.

It may not be possible to identify a single discrete event. Instead the combined effect of several events may have caused financial assets to become credit-impaired. The Corporation assesses whether debt instruments that are financial assets measured at amortised cost or FVOCI are credit-impaired at each reporting date. To assess if corporate debt instruments are credit impaired, the Corporation considers factors such as bond yields, credit ratings and the ability of the borrower to raise funds.

A loan is considered credit-impaired when a concession is granted to the borrower due to deterioration in the borrower's financial condition. The definition of default includes unlikelihood to pay indicators and a back-stop if amounts are overdue for 90 days or more.

Borrowers forming part of schemes released under the regulatory packages like Moratorium, One-Time restructuring and Emergency credit linked guaranteed scheme were evaluated for credit impairment.

3.2.6.4 *Definition of Default*

The definition of default is used in measuring the amount of ECL and in the determination of whether the loss allowance is based on 12-month or lifetime ECL.

The Corporation considers the following as constituting an event of default:

- the borrower is past due more than 90 days + Accounts Identified by HDFC as NPA as per regulatory guidelines + Objective Evidence for impairment (Qualitative Overlay); or
- the borrower is unlikely to pay its credit obligations to the Corporation.

When assessing if the borrower is unlikely to pay its credit obligation, the Corporation takes into account both qualitative and quantitative indicators. The information assessed depends on the type of the asset, for example in corporate lending a qualitative indicator used is the breach of covenants, which is not as relevant for individual lending. Quantitative indicators, such as overdue status and non-payment on another obligation of the same counterparty are key inputs in this analysis.

3.2.6.5 *Write-off*

Loans and debt securities are written off when the Corporation has no reasonable expectations of recovering the financial asset (either in its entirety or a portion of it). This is the case when the Corporation determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. A write-off constitutes a derecognition event. The Corporation may apply enforcement activities to financial assets written off/ may assign / sell loan exposure to ARC / Bank / a financial institution for a negotiated consideration. Recoveries resulting from the Corporation's enforcement activities could result in impairment gains. The corporation has a Board approved policy on Write off and one time settlement of loans.

Notes forming part of the standalone financial statements (Continued)

3.2.7 Modification and Derecognition of Financial Assets

A modification of a financial asset occurs when the contractual terms governing the cash flows of a financial asset are renegotiated or otherwise modified between the initial recognition and maturity of the financial asset. A modification affects the amount and/or timing of the contractual cash flows either immediately or at a future date. In addition, the introduction or adjustment of existing covenants of an existing loan would constitute a modification even if these new or adjusted covenants do not yet affect the cash flows immediately but may affect the cash flows depending on whether the covenant is or is not met (e.g. a change to the increase in the interest rate that arises when covenants are breached).

The Corporation renegotiates loans to customers in financial difficulty to maximise collection and minimise the risk of default. Loan forbearance is granted in cases where although the borrower made all reasonable efforts to pay under the original contractual terms, there is a high risk of default or default has already happened and the borrower is expected to be able to meet the revised terms. The revised terms in most of the cases include an extension of the maturity of the loan, changes to the timing of the cash flows of the loan (principal and interest repayment), reduction in the amount of cash flows due (principal and interest forgiveness) and amendments to covenants.

When a financial asset is modified the Corporation assesses whether this modification results in derecognition. In accordance with the Corporation's policy, a modification results in derecognition when it gives rise to substantially different terms. To determine if the modified terms are substantially different from the original contractual terms the Corporation considers the following:

Qualitative factors, such as contractual cash flows after modification, are no longer SPPI, change in currency or change of counterparty, the extent of change in interest rates, maturity, covenants, if these do not clearly indicate a substantial modification, then; a quantitative assessment is performed to compare the present value of the remaining contractual cash flows under the original terms with the contractual cash flows under the revised terms, both amounts discounted at the original EIR. If there is a significant difference in present value, the Corporation deems the arrangement substantially different, leading to derecognition.

In the case where the financial asset is derecognised the loss allowances for ECL is remeasured at the date of derecognition to determine the net carrying amount of the asset at that date. The difference between this revised carrying amount and the fair value of the new financial asset with the revised terms may lead to a gain or loss on derecognition. The new financial asset may have a loss allowance measured based on 12-month ECL except where the new loan is considered to be originated-credit impaired. This applies only in the case where the fair value of the new loan is recognised at a significant discount to its revised par amount because there remains a high risk of default which has not been reduced by the modification. The Corporation monitors the credit risk of modified financial assets by evaluating qualitative and quantitative information, such as if the borrower is in past due status under the new terms.

When the contractual terms of a financial asset are modified and the modification does not result in derecognition, the Corporation determines if the financial asset's credit risk has increased significantly since initial recognition by comparing:

- The remaining lifetime PD estimated based on data at initial recognition and the original contractual terms;
- The remaining lifetime PD at the reporting date based on the modified terms.

For financial assets modified, where modification does not result in derecognition, the estimate of PD reflects the Corporation's ability to collect the modified cash flows taking into account the Corporation's previous experience of similar forbearance action, as well as various behavioral indicators, including the borrower's

Notes forming part of the standalone financial statements (Continued)

payment performance against the modified contractual terms. If the credit risk remains significantly higher than what was expected at initial recognition, the loss allowance is continued to be measured at an amount equal to lifetime ECL. The loss allowance on forbore loans is generally measured based on 12-month ECL when there is evidence of the borrower's improved repayment behavior following modification leading to a reversal of the previous significant increase in credit risk.

Where a modification does not lead to derecognition, the Corporation calculates the modification gain/loss comparing the gross carrying amount before and after the modification (excluding the ECL allowance). Then the Corporation measures ECL for the modified asset, where the expected cash flows arising from the modified financial asset are included in calculating the expected cash shortfalls from the original asset.

The Corporation derecognises a financial asset only when the contractual rights to the asset's cash flows expire (including expiry arising from a modification with substantially different terms), or when the financial asset and substantially all the risks and rewards of ownership of the asset are transferred to another entity. If the Corporation neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Corporation recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Corporation retains substantially all the risks and rewards of ownership of a transferred financial asset, the Corporation continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain/loss that had been recognised in OCI and accumulated in equity is recognised in the statement of profit and loss, with the exception of equity investment designated as measured at FVOCI, where the cumulative gain/loss previously recognised in OCI is not subsequently reclassified to the statement of profit and loss.

On derecognition of a financial asset other than in its entirety (e.g. when the Corporation retains an option to repurchase part of a transferred asset), the Corporation allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain/loss allocated to it that had been recognised in OCI is recognised in the statement of profit and loss. A cumulative gain/loss that had been recognised in OCI is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts. This does not apply for equity investments designated as measured at FVOCI, as the cumulative gain/loss previously recognised in OCI is not subsequently reclassified to the statement of profit and loss.

3.2.8 Derecognition of Financial Liabilities

The Corporation derecognises financial liabilities when, and only when, the Corporation's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the statement of profit and loss.

3.2.9 Collateral Valuation and Repossession

The Corporation provides fully secured, partially secured, and unsecured loans to individuals and Corporates to mitigate the credit risk on financial assets, the Corporation seeks to use collateral, where possible as per the powers conferred on the Housing Finance Companies under the Securitisation and Reconstruction of Financial Assets and Enforcement of Securities Interest Act, 2002 ("SARFAESI").

Notes forming part of the standalone financial statements (Continued)

In its normal course of business, the Corporation does not physically repossess properties or other assets in its retail portfolio, but engages external agents to recover funds, generally at auction, to settle outstanding debt. Any surplus funds are returned to the customers/obligors. As a result of this practice, the residential properties under legal repossession processes are not recorded on the balance sheet and not treated as non-current assets held for sale.

3.2.10 Servicing of Assets / Liabilities

The Corporation transfers loans through securitisation and direct assignment transactions. The transferred loans are de-recognised and gains/losses are accounted for, only if the Corporation transfers substantially all risks and rewards specified in the underlying assigned loan contract. In accordance with the Ind AS 109, on de-recognition of a financial asset under assigned transactions for a fee, the Corporation recognises the fair value of future service fee income over service obligations cost on net basis as service fee income in the statement of profit and loss and, correspondingly creates a service asset in balance sheet.

The Corporation recognises either a servicing asset or a servicing liability for servicing contract. If the fee to be received is not expected to compensate the Corporation adequately for performing the servicing activities, a servicing liability for the servicing obligation is recognised at its fair value. If the fee to be received is expected to be more than adequate compensation for the servicing activities, a servicing asset is recognised. Corresponding amount is recognised in Statement of Profit and Loss.

3.2.11 Derivative Financial Instruments

The Corporation enters into a variety of derivative financial instruments to manage its exposure to interest rate risk and foreign exchange rate risk. Derivatives held include foreign exchange forward contracts, interest rate swaps, cross currency interest rate swaps and foreign exchange option contracts.

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each balance sheet date. The resulting gain/loss is recognised in the statement of profit and loss immediately unless the derivative is designated and is effective as a hedging instrument, in which event the timing of the recognition in the statement of profit and loss depends on the nature of the hedge relationship. The Corporation designates certain derivatives as either hedges of the fair value of recognised assets or liabilities (fair value hedges) or hedges of highly probable forecast transactions (cash flow hedges).

A derivative with a positive fair value is recognised as a financial asset whereas a derivative with a negative fair value is recognised as a financial liability.

3.2.11.1 Hedge Accounting

The Corporation makes use of derivative instruments to manage exposures to interest rate and foreign currency. In order to manage particular risks, the Corporation applies hedge accounting for transactions that meet specified criteria.

At the inception of a hedge relationship, the Corporation formally designates and documents the hedge relationship to which the Corporation wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Corporation's risk management objective and strategy for undertaking hedge, the hedging / economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the Corporation would assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an on-going basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Notes forming part of the standalone financial statements (Continued)

Hedges that meet the criteria for hedge accounting are accounted for, as described below:

3.2.11.2 Fair Value Hedges

Fair value hedges hedge the exposure to changes in the fair value of a recognised asset or liability, or an identified portion of such an asset, liability, that is attributable to a particular risk and could affect profit or loss.

For designated and qualifying fair value hedges, the cumulative change in the fair value of a hedging derivative is recognised in the statement of profit and loss in Finance Costs. Meanwhile, the cumulative change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item in the balance sheet and is also recognised in the statement of profit and loss in Finance Cost.

The Corporation classifies a fair value hedge relationship when the hedged item (or group of items) is a distinctively identifiable asset or liability hedged by one or a few hedging instruments. The financial instruments hedged for interest rate risk in a fair value hedge relationship is fixed rate debt issued and other borrowed funds. If the hedging instrument expires or is sold, terminated or exercised, or where the hedge no longer meets the criteria for hedge accounting, the hedge relationship is discontinued prospectively. If the relationship does not meet hedge effectiveness criteria, the Corporation discontinues hedge accounting from the date on which the qualifying criteria are no longer met. For hedged items recorded at amortised cost, the accumulated fair value hedge adjustment to the carrying amount of the hedged item on termination of the hedge accounting relationship is amortised over the remaining term of the original hedge using the recalculated EIR method by recalculating the EIR at the date when the amortisation begins. If the hedged item is derecognised, the unamortised fair value adjustment is recognised immediately in the statement of profit and loss.

3.2.11.3 Cash Flow Hedges

A cash flow hedge is a hedge of the exposure to variability in cash flows that is attributable to a particular risk associated with a recognised asset or liability (such as all or some future interest payments on variable rate debt) or a highly probable forecast transaction and could affect profit or loss.

For designated and qualifying cash flow hedges, the effective portion of the cumulative gain or loss on the hedging instrument is initially recognised directly in OCI within equity (cash flow hedge reserve). The ineffective portion of the gain or loss on the hedging instrument is recognised immediately as Finance Cost in the statement of profit and loss.

When the hedged cash flow affects the statement of profit and loss, the effective portion of the gain or loss on the hedging instrument is recorded in the corresponding income or expense line of the statement of profit and loss.

When a hedging instrument expires, is sold, terminated, exercised, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss that has been recognised in OCI at that time remains in OCI and is recognised when the hedged forecast transaction is ultimately recognised in the statement of profit and loss. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in OCI is immediately transferred to the statement of profit and loss.

3.2.12 Financial Guarantee Contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by the Corporation are initially measured at their fair values and, if not designated as at FVTPL and not arising from a transfer of a financial asset, are subsequently measured at the higher of:

Notes forming part of the standalone financial statements (Continued)

- the amount of the loss allowance determined in accordance with Ind AS 109; and
- the amount initially recognised less, where appropriate, cumulative amount of income recognised in accordance with the Corporation's revenue recognition policies.

The Corporation has not designated any financial guarantee contracts as FVTPL.

3.3 Property, Plant and Equipment ("PPE")

PPE held for use are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses.

PPE is recognised when it is probable that future economic benefits associated with the item is expected to flow to the Corporation and the cost of the item can be measured reliably. PPE is stated at original cost net of tax/duty credits availed, if any, less accumulated depreciation and cumulative impairment, if any. Cost includes professional fees related to the acquisition of PPE.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the statement of profit and loss.

3.4 Investment Property

Investment properties are properties held to earn rentals and/or capital appreciation and are measured and reported at cost, less accumulated depreciation and accumulated impairment losses.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on de-recognition of property is recognised in the Statement of Profit and Loss in the same period.

3.5 Intangible Assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the Corporation and the cost of the asset can be measured reliably. Intangible assets are stated at original cost net of tax/duty credits availed, if any, less accumulated amortisation and cumulative impairment. Administrative and other general overhead expenses that are specifically attributable to acquisition of intangible assets are allocated and capitalised as a part of the cost of the intangible assets.

Intangible assets not ready for the intended use on the date of Balance Sheet are disclosed as "Intangible assets under development".

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains and losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the assets are recognised in the statement of profit and loss when the asset is derecognised.

3.6 Capital work-in-progress

Capital work in progress includes assets not ready for the intended use and is carried at cost, comprising direct cost and related incidental expenses.

3.7 Depreciation and Amortisation

Depreciation is recognised using straight line method so as to write off the cost of the assets (other than freehold land) less their residual values over their estimated useful lives specified in Schedule II to the Act, or in case of assets where the estimated useful life was determined by technical evaluation, over the useful

Notes forming part of the standalone financial statements (Continued)

life so determined. Depreciation method is reviewed at each financial year end to reflect expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful life and residual values are also reviewed at each financial year end with the effect of any change in the estimates of useful life/residual value is recognised on prospective basis.

Depreciation for additions to/deductions from, owned assets is calculated pro rata to the period of use.

Freehold land is not depreciated. Leasehold land is amortised over the duration of the lease. The useful life of the property, plant and equipment held by the Corporation is as follows:

Class of Assets	Useful Life
Buildings	60 years
Computer Hardware*	4 years
Furniture & Fittings	10 years
Office Equipment	5 years
Vehicles*	5 years
Computer Software*	4 years

* For the above class of assets, based on internal assessment and independent technical evaluation carried out by external valuers, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Act.

Intangible assets with finite useful lives are amortised on straight line basis over the estimated useful life of 4 years. The method of amortisation and useful life are reviewed at the end of each accounting year with the effect of any changes in the estimate being accounted for on a prospective basis.

Intangible assets with indefinite useful lives are tested for impairment by comparing its recoverable amount with its carrying amount annually and whenever there is an indication that the intangible asset may be impaired.

3.8 Impairment of Assets other than Financial Instruments

As at the end of each accounting year, the Corporation reviews the carrying amounts of its PPE, investment property and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, the PPE, investment property and intangible assets are tested for impairment so as to determine the impairment loss, if any.

3.9 Employee Benefits

3.9.1 Share-based Payment Arrangements

Estimating fair value for share-based payment transactions requires use of an appropriate valuation model. The Corporation measures the cost of equity-settled transactions with Option holders using Black-Scholes Model to determine the fair value of the options on the grant date.

Inputs into the valuation model, includes assumption such as the expected life of the share option, volatility and dividend yield.

The stock options granted to employees pursuant to the Corporation's Stock Options Schemes, are measured at the fair value of the options at the grant date using Black Scholes Model. The fair value of the options determined at grant date is accounted as employee compensation cost over the vesting period on a straight line basis over the period of option, based on the number of grants expected to vest, with corresponding increase in equity. On cancellation or lapse of option granted to employees, the compensation cost charged to statement of profit & loss is credited with corresponding decrease in equity.

Notes forming part of the standalone financial statements (Continued)

3.9.2 Defined Contribution Plans

3.9.2.1 Superannuation Fund

The Corporation's contribution to superannuation fund is considered as a defined contribution plan and is charged as an expense based on the amount of contribution required to be made.

3.9.3 Defined Benefit Plans

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

3.9.3.1 Provident Fund

All employees of the Corporation are entitled to receive benefits under the Provident Fund. The Corporation makes a contribution to provident fund and the schemes thereunder, as recognised by the Income-tax authorities and administered by the trust. The contributions are recognised as an expense in the year in which they are incurred. The Rules of the Corporation's Provident Fund administered by a Trust require that if the Board of Trustees is unable to pay interest at the rate declared for Employees' Provident Fund by the Government under para 60 of the Employees' Provident Fund Scheme, 1952 for the reason that the return on investment is less or for any other reason, then the deficiency shall be made good by the Corporation. Actuarial valuation of this Provident Fund interest shortfall is done as per the guidance note issued in this respect by The Institute of Actuaries of India (IAI) and provision towards this liability, if any is recognised.

3.9.3.2 Gratuity and Other Post Retirement Benefits

For defined benefit plans in the form of gratuity fund and post retirement pension scheme for whole-time Directors, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each balance sheet date. Remeasurements are recognised in the Other Comprehensive Income in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, as reduced by the fair value of planned assets.

3.9.3.3 Short-term Employee Benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

3.9.3.4 Long-term Employee Benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date, based on actuarial valuation.

Notes forming part of the standalone financial statements (Continued)

3.10 Leases

The Corporation as Lessee

The Corporation's lease asset classes primarily consist of leases for office premises. The Corporation assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Corporation assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Corporation has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Corporation has the right to direct the use of the asset.

At the date of commencement of the lease, the Corporation recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Corporation changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Corporation as Lessor

Leases for which the Corporation is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

3.11 Dividends on Ordinary Shares

The Corporation recognises a liability to make cash to equity holders of the Corporation when the dividend is authorised and the distribution is no longer at the discretion of the Corporation. As per the corporate laws in India, an interim dividend is authorised when it is approved by the Board of Directors and final dividend is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

Notes forming part of the standalone financial statements (Continued)

3.12 Cash and Cash Equivalents

Cash comprises of cash on hand and demand deposits with banks. Cash equivalents are short-term deposits with banks (with an original maturity of three months or less from the date of placement) and cheques on hand. Short term and liquid investments being subject to more than insignificant risk of change in value, are not included as part of cash and cash equivalents.

3.13 Securities Premium Account

Securities premium is credited when shares are issued at premium. It can be used to issue bonus shares, to provide for premium on redemption of shares and issue expenses of securities which qualify as equity instruments.

3.14 Borrowing Costs

Borrowing costs include interest expense calculated using the EIR on respective financial instruments measured at amortised cost, finance charges in respect of assets acquired on finance lease and exchange differences arising from foreign currency borrowings, to the extent they are regarded as an adjustment to interest costs.

3.15 Foreign Currencies

- (i) Functional currency of the Corporation and foreign operations has been determined based on the primary economic environment in which the Corporation and its foreign operations operate considering the currency in which funds are generated, spent and retained.
- (ii) Transactions in currencies other than the Corporation's functional currency are recorded on initial recognition using the exchange rate at the transaction date. At each Balance Sheet date, foreign currency monetary items are reported at the rates prevailing at the year-end. Non-monetary items that are measured in terms of historical cost in foreign currency are not retranslated.

Exchange differences that arise on settlement of monetary items or on reporting of monetary items at each Balance Sheet date at the closing spot rate are recognised in the Statement of Profit and Loss in the period in which they arise except for Long Term Monetary Items outstanding as at March 31, 2018, for which differences are recognized in FCMITDA and amortised in Profit & Loss statement.

3.16 Segments

The Corporation's main business is financing by way of loans for the purchase or construction of residential houses, commercial real estate or certain other purposes, in India. All other activities of the Corporation revolve around the main business. This in the context of Ind AS 108 - Operating Segments reporting is considered to constitute one reportable segment.

3.17 Investments in Subsidiaries, Joint Ventures and Associates

Investments in Subsidiaries and Associates are measured at cost as per Ind AS 27 - Separate Financial Statements.

3.18 Earnings Per Share

Basic earnings per share is computed by dividing profit or loss attributable to ordinary equity holders by the weighted average number of shares outstanding during the year. Diluted earnings per share is computed using the weighted average number of shares and dilutive potential shares, except where the result would be anti-dilutive.

3.19 Taxes on Income

The Corporation's tax jurisdiction is in India. Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid/recovered for certain tax positions.

Income tax expense comprises current and deferred taxes. Income tax expense is recognized in the statement of profit and loss except when they relate to items that are recognized outside statement of profit and loss

Notes forming part of the standalone financial statements (Continued)

(whether in other comprehensive income or directly in equity), in which case tax is also recognized outside statement of profit and loss.

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilized business loss and depreciation carry-forwards and tax credits. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date, and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured based on the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Corporation intends to settle its current tax assets and liabilities on a net basis.

Significant accounting estimates and judgements are involved in determining Corporation's tax charge for the year which includes an interpretation of local tax laws, judicial pronouncements and an assessment whether the tax authorities will accept the position taken. These judgements, also, take account of external advice, wherever appropriate, and the Corporation's view on settling with the tax authorities.

The Corporation provides for current tax liabilities at the best estimate that is expected to be paid to the tax authorities where an outflow is probable.

3.20 Goods and Services Input Tax Credit

Goods and Services tax input credit is recognised for in the books in the period in which the supply of goods or service received is recognised and when there is no uncertainty in availing/utilising the credits.

3.21 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised only when:

- (i) The Corporation has a present obligation (legal or constructive) as a result of a past event; and
- (ii) It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- (iii) A reliable estimate can be made of the amount of the obligation.

Provision is measured using the cash flows estimated to settle the present obligation and when the effect of time value of money is material, the carrying amount of the provision is the present value of those cash flows.

Contingent liability is disclosed in case of:

- (i) A present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; or
- (ii) A present obligation arising from past events, when no reliable estimate is possible.

Where the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under such contract, the present obligation under the contract is recognised and measured as a provision.

Notes forming part of the standalone financial statements (Continued)

Contingent Assets:

Contingent assets are not recognised in the financial statements.

Contingent assets are disclosed where an inflow of economic benefits is probable.

Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

3.22 Commitments

Commitments are future liabilities for contractual expenditure, classified and disclosed as follows:

- a) Estimated amount of contracts remaining to be executed on capital account and not provided for;
- b) Uncalled liability on shares and other investments partly paid;
- c) Funding related commitment to associate and joint venture companies; and
- d) Other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of management.

3.23 Non-Current Assets held for sale

Non-current assets are classified as held for sale if their carrying amount is intended to be recovered principally through a sale (rather than through continuing use) when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such asset and the sale is highly probable and is expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at lower of their carrying amount and fair value less costs to sell.

3.24 Statement of Cash Flows

Statement of Cash Flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method adjusting the net profit for the effects of:

- i. changes during the period in operating receivables and payables transactions of a non-cash nature;
- ii. non-cash items such as depreciation, provisions, deferred taxes, unrealised foreign currency gains and losses; and
- iii. All other items for which the cash effects are investing or financing cash flows.

Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of Balance Sheet.

4. Consequent to the outbreak of COVID-19 pandemic, the Indian government had announced lockdown in March 2020. Subsequently, the lockdown has been lifted by the government in a phased manner outside specified containment zones.

The extent to which the COVID-19 pandemic, including the current second wave that has significantly increased the number of cases in India, may continue to impact Corporation's performance, will depend on ongoing and future developments, which are uncertain, including among other things, any new information concerning the severity of the COVID-19 pandemic and any action to contain its spread or mitigate its impact whether government mandated or elected by us.

In accordance with the RBI guidelines relating to COVID-19 Regulatory Package dated March 27, 2020, April 17, 2020 and May 23, 2020, the Corporation had offered moratorium on the payment of instalments falling due between March 1, 2020 and August 31, 2020 ('moratorium period') to eligible borrowers. In respect of accounts where moratorium benefit was granted, the staging of those accounts as at March 31, 2021 is based on the days past due status considering the benefit of moratorium period in accordance with the COVID-19 Regulatory Package announced by the RBI vide aforesaid notifications.

7. Derivative Financial Instruments

The Corporation enters into derivatives for risk management purposes. Derivatives held for risk management purposes as of these reporting dates, meet the hedge accounting requirements.

The table below shows the fair values of derivative financial instruments recorded as assets or liabilities together with their notional amounts.

The notional amounts indicate the value of transactions outstanding at the year end and are not indicative of either the market risk or credit risk.

₹ in Crore

Particulars	As at March 31, 2021			As at March 31, 2020		
	Notional Amounts*	Fair Value - Assets	Fair Value - Liabilities	Notional Amounts*	Fair Value - Assets	Fair Value - Liabilities
Part I						
(i) Currency derivatives:

9 (b) Loans granted by the Corporation are secured or partly secured by one or a combination of the following securities;

- Registered / equitable mortgage of property;
- Non disposal undertakings in respect of shares, pledge of shares, units, other securities, assignment of life insurance policies;
- Hypothecation of assets;
- Bank guarantees, company guarantees or personal guarantees;
- Negative lien;
- Assignment of receivables;
- Liquidity Support. Collateral [e.g. DSRA (Debt Service Reserve Account), Lien of Fixed Deposit]

9 (c) Loans including Installment and Interest outstanding due from the directors amounts to ₹ Nil (Previous Year ₹ 0.02 Crore) and other related parties ₹ **23.91 Crore** (Previous Year ₹ 4.63 Crore) [Refer Note 43].

9 (d) There were no loans given against the collateral of gold jewellery and hence the percentage of such loans to the total outstanding asset is Nil (Previous Year Nil).

9 (e) Loans including Installment and Interest outstanding amounts to ₹ **529.41 Crore** (Previous Year ₹ 467.16 Crore) in respect of properties held for disposal under Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002.

Notes forming part of the standalone financial statements (Continued)

9 (f) Expected Credit Loss

Expected Credit Loss is a calculation of the present value of the amount expected not to be recovered on a financial asset, for financial reporting purposes. Credit risk is the potential that the obligor and counterparty will fail to meet its financial obligations to the lender. This requires an effective assessment and management of the credit risk at both individual and portfolio level.

The key components of Credit Risk assessment are:

- Probability of Default (PD): represents the likelihood of default over a defined time horizon.
- Exposure at Default (EAD): represents the gross exposure at the time of default.
- Loss Given Default (LGD): represents the proportion of EAD that is likely loss post-default.

The definition of default is taken as more than 90 days past due (DPD) for all individual loans, corporate loans, and others. Delinquency buckets have been considered as the basis for the staging of all loans with:

- 0-30 DPD and overdue up to one calendar month is classified as stage 1
- 31-90 DPD and overdue more than one calendar month, but not Stage 3; in addition to SICR accounts is classified as stage 2 and
- 90+ DPD + Accounts Identified by HDFC as NPA as per regulatory guidelines + Objective Evidence for impairment (Qualitative Overlay) is classified as stage 3

EAD is the total amount outstanding including accrued interest as of reporting date. The ECL is computed as a product of PD, LGD and EAD.

Macro-economic Variables: The measurement of ECL should be forward looking in nature. In order to incorporate forward looking macroeconomic characteristics into ECL, relationships with macroeconomic variables such as Gross Domestic Product, Inflation, Total investments, National Savings, etc. (relevant variables to the underlying loan portfolio) are analysed and modelled into estimates of Probability of Default (PD). Forecasted 12-months and Lifetime PDs are driven by IMF macroeconomic forecasts for India released as part of World Economic Outlook, October 2020.

COVID-19 Impact Analysis – Further, the Corporation has also evaluated its individual and non-individual portfolios to determine any specific category of customers which may reflect higher credit losses (e.g. based on specific sectors) or borrowers who have shown stress due to COVID like salary cut / loss of pay, job loss temporary / permanent, business closed, business related financial difficulty, increase in business expenditure, etc. Basis such determination, the Corporation has recognised provisions as management overlay for specific categories of customers. Cumulative Covid-19 provision as at March 31, 2021 stood at ₹ **843.57 Crore**.

Notes forming part of the standalone financial statements (Continued)

9.1 Individual Loans

9.1.1 Credit Quality of Assets

For the purpose of computing Probability of Default (PD), the Corporation classifies all individual loans at amortized cost and has assessed them at the collective pool level.

The individual loan book has been divided into the following segments –

- Housing and Non-Housing
- Salaried and Self Employed
- Geographical location (North, East, West and South)

The 12 months default rates have been forecasted to create the PD term structure which incorporates both 12 month (Stage 1 Loans) and lifetime PD (Stage 2 Loans). The historical 12 months default rates are modelled against relevant macroeconomic variables to arrive at future 12 months point-in-time default rates. The forecasted default rates are then used to create point-in-time PD term structure.

The vintage analysis methodology has been used to create the LGD vintage. The LGD vintage takes into account the recovery experience across accounts of a particular portfolio post default. The recoveries are tracked and discounted to the date of default using the interest rate. The Individual Loans portfolio has been considered together for the LGD computation.

9.2 Corporate Lending

9.2.1 Credit Quality of Assets

Measurement of ECL for stage 1 and certain stage 2 non-individual / corporate loans is based on portfolio approach where PD and LGD is calculated based on historic performance of the portfolio further segmented into: i) Corporate Finance ii) Construction Finance iii) Lease Rental Discounting iv) Inter-Corporate Deposits. Certain loans classified as stage 2 and all the loans classified as Stage 3 are assessed for ECL provisioning based on case to case approach by calculating probability weighted average cashflows under different recovery scenarios.

The vintage analysis methodology has been used to create the LGD vintage for measurement of ECL, based on a portfolio approach. The LGD vintage takes into account the recovery experience across accounts of a particular portfolio post default. The recoveries are tracked and discounted to the date of default using the effective interest rate.

The Corporation has identified certain non individual accounts as Watch List under Stage 2 based on the following criteria:

- Builders' Cash flows are insufficient to service the loan due to slow sales or the project is stalled.
- Borrowers' operational cashflows are insufficient indicating possibility of further delayed payments.
- Security cover is insufficient for repayment of loans.
- Where the borrowing company has been proceeded upon under Insolvency and Bankruptcy Code (IBC) by creditors and such reference has been admitted by the National Company Law Tribunal (NCLT).

Notes forming part of the standalone financial statements (Continued)

Such accounts identified as watchlist are upgraded by the Corporation, where the management is satisfied that the risks associated with the account have abated.

9.3 ECL Provision

In addition to the management overlays described above in relation to the impact of COVID-19, during the year, the management has recognised additional provisions towards overlay in relation to specific categories of individual customers e.g. customers associated with incomplete projects, the impact of a reduction in collateral value associated with specific Stage 3 customers, customers associated with projects covered by subvention schemes, etc.

Further, during the year, the Corporation has also applied point in time method for determining the probability of default in relation to computation of provision under the expected credit loss model for non-individual customers.

9.4 An analysis of changes in the gross carrying amount of loans and the corresponding ECL allowances in relation to loans are, as follows:

₹ in Crore

Particulars	2020-21				2019-20

\$ The Corporation has not recognised any provision under Expected Credit Loss on Investments made in Government Securities.

* Others includes Investment in subsidiaries and associates which have been carried at cost.

Note 10.1 GRUH Finance Limited

During the previous year, in view of the scheme of amalgamation filed by GRUH Finance Limited ("GRUH"), a Subsidiary of the Corporation, and Bandhan Bank Limited ("Bandhan") and the subsequent directive by the Reserve Bank of India to the Corporation to hold not more than 9.9% of the share capital of Bandhan post merger, the Corporation sold its partial holding in the shares of the GRUH and recognised profit on sale of investments recognised amounting to ₹ 3,523.75 Crore. Consequently, on August 30, 2019 the Corporation's shareholding in GRUH was reduced to 38% and accordingly the investment in GRUH was classified as an associate company. On the effective date of the merger of GRUH with Bandhan Bank Limited (Bandhan Bank) i.e. October 17, 2019, the Corporation was allotted 15,93,63,149 shares aggregating 9.90% of the total issued share capital of Bandhan. On derecognition of investment in GRUH as an associate, the Corporation has recorded a fair value gain of ₹ 9,019.81 Crore through the Statement of Profit and Loss for the year ended March 31, 2020.

Note 10.2 HDFC ERGO Health Insurance Limited

During the year, the National Company Law Tribunal has sanctioned the Scheme of Amalgamation for merger of HDFC ERGO Health Insurance Limited (formerly Apollo Munich Health Insurance Company Limited) (HDFC ERGO Health) with and into HDFC ERGO General Insurance Company Limited (HDFC ERGO), subsidiaries of the Corporation and Insurance Regulatory and Development Authority of India (IRDAI) has issued final approval for the merger. Consequently, HDFC ERGO Health has been merged with HDFC ERGO from appointed date i.e. March 1, 2020. As at the end of this quarter the Corporation's holding in HDFC ERGO, the merged entity is 50.56 per cent. As per the directions of RBI, the Corporation is required to reduce its shareholding in the merged entity to 50 per cent or below on within 6 months post amalgamation.

Note 10.3 Debt Asset Swap

The Corporation has entered into debt assets swap, wherein the gross carrying amount of the Investments taken over as at March 31, 2021 stood at ₹ 347.30 Crore (Previous Year ₹ 62.47 Crore).

Note 10.4 Good Host Spaces Private Limited

Subsequent to the year ended March 31, 2021, the Corporation has sold its entire holding i.e. 47,75,241 equity shares representing 24.48% of the equity capital of Good Host Spaces Private Limited (Good Host) an associate. Accordingly, investment in Good Host is classified as assets held for sale as on March 31, 2021. Profit on sale of investment in Good Host will be recognised in financial year 2021-2022.

12.3 Income Tax recognised in profit or loss

₹ in Crore

Particulars	For the year ended March 31, 2021	For the year ended March 31, 2020
Current Tax		
In respect of the current year	3,040.65	2,571.68
Deferred Tax		
In respect of the current year	(252.86)	9.59
Total Income tax expense recognised in the current year relating to continuing operations	2,787.79	2,581.27

12.3.1 The evaluation of uncertain tax positions involves an interpretation of relevant tax laws which could be subject to challenge by the tax authorities and an assessment of whether the tax authorities will accept the position taken. The Corporation does not currently consider that assumptions or judgements made in assessing tax liabilities have a significant risk resulting in a material adjustment within the next financial year. (Refer note 40.2)

12.3.2 Reconciliation of income tax expense of the year can be reconciled to the accounting profit as follows:

₹ in Crore

Particulars	For the year ended March 31, 2021	For the year ended March 31, 2020
Standalone Profit before tax	14,815.09	20,350.92
Income tax expense calculated at 25.168%	3,728.66	5,121.92
Effect of expenses that are not deductible in determining taxable profit	206.28	174.09
Effect of incomes which are taxed at different rates	(183.06)	(1,430.36)
Effect of incomes which are exempt from tax	(536.49)	(1,158.12)
Effect on deferred tax balances due to the changes in income tax rate	-	237.67
Deduction under Section 36(1)(viii) of the Income tax Act, 1961	(427.60)	(363.93)
Income tax expense recognised in statement of profit and loss	2,787.79	2,581.27
Effective tax rate (%)	18.82%	12.68%

The tax rate used for the reconciliations above is the corporate tax rate of **25.168%** (Previous year 25.168%) for the financial year ended March 31, 2021 payable by corporate entities in India on taxable profits under tax law in Indian jurisdiction.

12.3.3 During the previous year, the Corporation has elected to exercise the option of a lower tax rate provided under Section 115BAA of the Income-tax Act, 1961, as introduced by the Taxation Laws (Amendment) Ordinance, 2019 dated September 20, 2019. Accordingly, the Corporation had recognised provision for income tax and re-measured its deferred tax assets (including re-measuring the opening balance as at April 1, 2019 and had taken a charge of ₹ 237.67 Crore relating to the same) basis the rate provided in the said section.

13.2 Fair Value

₹ in Crore

Particulars	As at March 31, 2021	As at March 31, 2020
Investment properties (Excluding work in progress)	1,111.83	964.40

The fair value of the Corporation's investment properties as at March 31, 2021 and March 31, 2020 has been arrived at on the basis of a External Valuation / Internal Valuation basis respectively (Level 3).

The Corporation leases out its investments properties. The Corporation has classified these leases as operating leases, because they do not transfer substantially all of the risk and rewards incidental to the ownership of the assets.

Rental Income recognised by the Corporation during the year ended March 31, 2021 in respect of Investment Properties amount to ₹ **52.13 Crore** (Previous year ₹ 44.76 Crore).

The following table sets out a maturity analysis of lease payments, showing the undiscounted lease payments to be received after the reporting period.

₹ in Crore

Total of Borrowings (B)	1,05,228.45	1,04,994.66
Less: Unamortised borrowing cost	(49.27)	(86.02)
Net Borrowings net of unamortised borrowing cost	1,05,179.18	1,04,908.64

19.1 All secured borrowings are secured by negative lien on the assets of the Corporation, subject to the charge created in favour of its depositors pursuant to the regulatory requirement under Section 29B of the National Housing Bank Act, 1987.

19.2 The Corporation has availed a loan of USD 100 million from the Asian Development Bank (Loan II). In respect of tranches 1 and 2 aggregating to USD 60 million, as per the agreements with a scheduled bank, the Corporation has handed over the dollar funds to the overseas bank and has obtained rupee funds in India amounting to ₹ 200 Crore by way of a term loan and ₹ 100 Crore through issue of bonds which have been subscribed by the bank.

In respect of tranche 3 of USD 40 million, as per the agreement with a financial institution, the Corporation has handed over the dollars to the Bank of India, Cayman Island and under a back-to-back arrangement obtained rupee funds in India. All payments in foreign currency are the responsibility of the financial institution. In terms of the agreements, the Corporation's foreign exchange liability is protected (Refer Note 6).

The loan availed from Asian Development Bank and the deposit placed with Bank of India, Cayman Island are revalued at the closing rate of exchange and are shown separately in the financial statement.

19.3 The Corporation had outstanding External Commercial Borrowing (ECBs) of USD 1,325 million and JPY 53,200 million for financing prospective owners of low cost affordable housing units as per the ECB guidelines issued by Reserve Bank of India ("RBI") from time to time. The borrowing has a maturity upto five years. In terms of the RBI guidelines, part of the borrowings have been swapped into rupees for the entire maturity by way of principal only swaps and balance borrowing has been hedged through forward / option contracts for shorter tenor. The currency exposure on the interest has been hedged by way of forward contracts for part of foreign currency borrowings.

Notes forming part of the standalone financial statements (Continued)

The charges for raising of the aforesaid ECB has been amortised over the tenure of the ECB.

19.4 As on March 31, 2021, the Corporation has foreign currency borrowings of **USD 1,377.45 million** and **JPY 53,200 million** (Previous Year USD 4,426.85 million and JPY 53,200 million). The Corporation has undertaken currency swaps, forward contracts and option contracts of a notional amount of **USD 1,365 million** and **JPY 53,200 million** (Previous Year USD 4,406.72 million and JPY 53,200) and foreign currency arrangements of **USD 12.45 million** (PY USD 20.13 million) to hedge the foreign currency risk.

As a part of Asset Liability Management (ALM) on account of the Corporation's Adjustable Rate Home Loan product as well as to reduce the overall cost of borrowings, the Corporation has entered into INR interest rate swaps of a notional amount of ₹ **93,160 Crore** (Previous Year ₹ 65,100 Crore), Coupon Only Swaps of ₹ **1,030 Crore** (Previous Year ₹ 1,059.38 Crore), USD Interest rate Swaps notional amount of ₹ **8,722 Crore** (Previous Year ₹ 12,750.40 Crore) as on March 31, 2021 for varying maturities into floating rate liabilities linked to various benchmarks.

- 26.2 There were no shareholder holding more than 5 percent shares in the Corporation as at March 31, 2021 and March 31, 2020.

- 26.3 Terms and rights attached to equity shares:

The Corporation has only one class of shares referred to as equity shares having Face Value of ₹ 2 each. Each holder of equity share is entitled to one vote per share.

The holders of equity shares are entitled to dividends, if any, proposed by the Board of Directors and approved by Shareholders at the Annual General Meeting.

Notes forming part of the standalone financial statements (Continued)

26.4 Dividend

The Corporation has not remitted any amount in foreign currencies on account of dividends during the year and does not have information as to the extent to which remittances, if any, in foreign currencies on account of dividends have been made by/on behalf of non-resident shareholders. The particulars of dividends payable to non-resident shareholders (including Foreign Portfolio Investors) are as under:

Particulars	Current Year	Previous Year
	Final	Final
Year to which the dividend relates	2019-20	2018-19
Number of non-resident shareholders	14,255	9,895
Number of shares held by them	122,41,00,641	129,35,59,451
Gross amount of dividend (₹ in Crore)	2,570.61	2,263.73

26.5 The Corporation has neither allotted any share pursuant to contracts without payment being received in cash or as bonus shares nor has it bought back any share during the preceding period of 5 financial years.

26.6 During the year, the Corporation issued 5,68,18,181 equity shares at a price of ₹ 1,760.00 per share and 36,930 secured redeemable non-convertible debentures of face value of ₹ 10,00,000 at par, each due on August 11, 2023, carrying a coupon rate of 5.40% payable annually, aggregating ₹ 3,693 Crore simultaneously with 1,70,57,400 warrants at an issue price of ₹ 180.00 per warrant with a right to exchange one warrant with one equity share of ₹ 2 each of the Corporation, any time before the expiry of 36 months from the date of allotment, at an exercise price of ₹ 2,165.00 per equity share, to eligible qualified institutional buyers through Qualified Institutions Placement under Chapter VI of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 and other applicable regulations.

The net proceeds of the funds raised through the issues has been utilised to augment the long term resources of the Corporation, to maintain sufficient liquidity in the uncertain economic environment driven by the outbreak of the COVID-19 pandemic, for general corporate purposes and to finance organic and/or inorganic business opportunities that may arise in financial services including housing finance and/or in areas where the subsidiaries of the Corporation operate.

Expenses incurred for issuance of equity share amounting to ₹ 22.34 Crore has been debited to securities premium account in accordance with the provisions of Companies Act, 2013.

26.7 As at March 31, 2021 **9,18,16,731 shares** (Previous Year 5,42,81,394 shares) were reserved for issuance as follows:

- a) **7,47,59,331 shares** of ₹ 2 each (Previous Year 5,42,81,394 shares of ₹ 2 each) towards outstanding Employees Stock Options granted / available for grant, including lapsed options [Refer Note 42].
- b) **1,70,57,400** underlying warrants (Previous Year: Nil) of ₹ 2 each towards outstanding warrants.

- 27.1 **Capital Reserve:** It has been created during the Business Combinations in earlier periods.
- 27.2 **Securities Premium:** Securities premium account is credited when the shares are allotted at premium. It can be used to issue bonus shares, to provide for premium on redemption of debentures, write-off equity raising related expenses in accordance with the provisions of Companies Act, 2013.
- 27.3 **General Reserve:** It is a free reserve which is created by appropriation from profits of the current year and/or undistributed profits of previous years, before declaration of dividend duly complying with any regulations in this regard.
- 27.4 **Special Reserve (I & II)** has been created over the years in terms of Section 36(1)(viii) of the Income-tax Act, 1961 out of the distributable profits of the Corporation.
- Special Reserve No. I** relates to the amounts transferred upto the Financial Year 1996-97.
- Special Reserve No. II** relates to the amounts transferred thereafter.
- 27.5 **Statutory Reserve:** As per Section 29C of The National Housing Bank Act, 1987 (the "NHB Act"), the Corporation is required to transfer at least 20% of its net profits every year to a reserve before any dividend is declared. For this purpose any Special Reserve created by the Corporation under Section 36(1)(viii) of the Income-tax Act, 1961 is considered to be an eligible transfer. The Corporation has transferred an amount of ₹ 2,000 Crore (Previous Year ₹ 3,400 Crore) to Special Reserve No. II in terms of Section 36(1)(viii) of the Income-tax Act, 1961 and an amount of ₹ 500 Crore (Previous Year ₹ 200 Crore) to "Statutory Reserve (As per Section 29C of The NHB Act)".
- 27.6 **Shelter Assistance Reserve:** It represents funding various development and grassroot level organisations for the purposes as mentioned in Schedule VI to the Companies Act, 2013 and in accordance with the Corporation's Policy.

Notes forming part of the standalone financial statements (Continued)

27.7 Other Comprehensive Income:

Effective portion of Cash Flow Hedge: It represents the cumulative gains/(losses) arising on revaluation of the derivative instruments designated as cash flow hedges through OCI.

Cost of Hedge: It represent the cumulative charge for the derivative instrument, in the form of premium amortisation on Option contracts and forward contracts taken, designated as cash flow hedges through OCI.

Reconciliation of movements in Cash flow hedge / Cost of hedge reserve

Particulars	₹ in Crore

On Financial Assets measured at FVTPL		
Interest income from investments	4.83	4.71
Total	42,771.96	42,647.12

- 28.1 In accordance with the RBI Circular No. RBI/2021-22/17 DOR.STR.REC.4/21.04.048/2021-22 dated April 7, 2021 and the methodology for calculation of interest on interest based on guidance issued by Indian Banks' Association, the Corporation has put in place a Board approved policy to refund / adjust interest on interest charged to borrowers during the moratorium period, i.e. March 1, 2020 to August 31, 2020. The Corporation has estimated the said amount and made a provision in the financial statements for the year ended March 31, 2021. As on March 31, 2021, the Corporation holds a specific liability of ₹ 115 Crore which is debited to interest income to meet its obligation towards refund of interest on interest to eligible borrowers as prescribed by the RBI. Accordingly, interest income for the year ended March 31, 2021 is lower by ₹ 115 Crore.

29.1 Dividend Income

Dividend Income includes ₹ **716.84 Crore** (Previous Year ₹ 204.22 Crore) received from subsidiary companies and ₹ **Nil** (Previous Year ₹ 0.06 Crore) received from Investment in Equity Shares classified as fair value through other comprehensive income.

The Corporation has received dividend of ₹ **Nil** (Previous Year ₹ 69.59 Crore) from shares derecognised during the year.

29.2 Rental Income

Income from Lease rental includes ₹ **52.13 Crore** (Previous Year ₹ 44.76 Crore) from Investment properties.

29.3 Fees and Commission Income

- 29.3.1 Fees and commission Income includes brokerage of ₹ **Nil** (Previous Year ₹ 0.04 Crore) received in respect of insurance/agency business undertaken by the Corporation.

- 29.3.2 Fees and Commission Income includes ₹ **193.98 Crore** (Previous Year ₹ 170.20 Crore) received from related parties.

Notes forming part of the standalone financial statements (Continued)

29.4 Net Gain on Fair Value Changes

₹ in Crore

Particulars	For the year ended March 31, 2021	For the year ended March 31, 2020
Net gain on financial instruments at fair value through profit or loss - Investments	956.80	9,117.22
Net gain/(loss) on financial instruments measured at amortised cost - Investments	(0.32)	1.82
Total Net gain on fair value changes	956.48	9,119.04
Fair Value changes:		
- Realised	49.22	44.96
- Unrealised	907.26	9,074.08
Total Net gain on fair value changes	956.48	9,119.04

29.4.1 In accordance with para 22 of "Ind AS 28 - Investments in Associates and Joint Ventures", on merger of GRUH Finance Ltd ("GRUH", erstwhile a subsidiary company) with Bandhan Bank Limited, the Corporation had recorded a fair value gain of ₹ **9,019.81 Crore** through the Statement of Profit and Loss in Previous Year (Refer Note 10.1) on derecognition of investment in GRUH.

29.5 Profit on Sale of Investments in Subsidiaries

29.5.1 During the year, the Corporation has sold 2,85,48,750 equity shares of HDFC Life Insurance Company Limited (HDFC Life), in two tranches in May 2020 and November 2020, to comply with the RBI direction to reduce the shareholding in HDFC Life to 50 per cent or below. As a result, a pre tax profit on sale of investments of ₹ 1,397.69 Crore has been recognised. Consequently, the Corporation's equity shareholding in HDFC Life stood at 49.99 per cent as on March 31, 2021.

29.5.2 During the previous year, profit on sale of investments include profit of ₹ **3,523.75 Crore** on partial sale of investment in GRUH to comply with direction from the RBI to achieve shareholding in Bandhan Bank Limited, post merger with GRUH below 10%.

29.6 Income on Derecognised (assigned) Loans

The Corporation has derecognised loans (measured at amortised cost) on account of assignment transactions resulting in total income of ₹ **1,190.25 Crore** (Previous Year ₹ 993.53 Crore) including upfront gains of ₹ **706.72 Crore** (Previous Year ₹ 531.55 Crore).

30. Finance Cost

₹ in Crore

Particulars	For the year ended March 31, 2021	For the year ended March 31, 2020
On Financial Liabilities measured at Amortised Cost		
Interest on Debt Securities	11,294.78	13,808.74
Interest on Term Loan Borrowings	6,167.90	6,645.23
Interest on Deposits	10,450.08	9,818.99
Interest on Subordinated Liabilities	455.69	508.65
Interest Expenses - Lease Rental Properties	15.03	15.95
Other charges	231.28	203.80
Total Finance Costs	28,614.76	31,001.36

Notes forming part of the standalone financial statements (Continued)

30.1 Finance cost for the year include foreign currency exchange loss of ₹ **2.48 Crore** (Previous year ₹ 40.43 Crore), further refer note 44.6.1.3 Hedging Policy.

31. Impairment on Financial Instruments

₹ in Crore

Particulars	For the year ended March 31, 2021	For the year ended March 31, 2020
On Financial Assets measured at Amortised Cost		
Loans	2,948.26	5,907.67
Investments	0.07	0.09
Others	(0.33)	5.34
Total	2,948.00	5,913.10

31.1 The details relating to movement in Impairment on Loans (Expected credit loss) is disclosed in note 9.5

31.2 Impairment on loans excludes impairment of ₹ **468 Crore** (Previous Year ₹ 199 Crore) relating to interest on Credit Impaired Assets, which is netted off from interest income.

32. Employee Benefits Expenses

₹ in Crore

Particulars	For the year ended March 31, 2021	For the year ended March 31, 2020
Salaries and Bonus	496.57	491.95
Contribution to Provident Fund and Other Funds	61.38	56.25
Staff Training and Welfare Expenses	17.74	31.08
Share Based Payments to employees	338.42	13.64
Total	914.11	592.92

35. Other Comprehensive Income

₹ in Crore

Particulars	For the year ended March 31, 2021	For the year ended March 31, 2020
Other comprehensive income		
<i>Items that will not be reclassified to profit or loss</i>		
Changes in fair value of FVOCI equity instruments	1,807.19	(7,356.25)
Remeasurements of post-employment benefit obligations	8.42	(42.37)
Total	1,815.61	(7,398.62)
Income tax relating to these items	(138.09)	683.03
<i>Items that may be reclassified to profit or loss</i>		
Deferred gains/(losses) on cash flow hedges	(23.64)	55.94
Deferred costs of hedging	99.41	28.62
Total	75.77	84.56
Income tax relating to these items	(19.07)	(21.28)
Other comprehensive income for the year, net of tax	1,734.22	(6,652.31)

- 35.1 During the year, the Corporation has sold Investment in equity share classified as fair value through other comprehensive income amounting to ₹ **45.38 Crore** and earned a profit of ₹ **11.60 Crore**.

36. Earnings per Share:

In accordance with the Indian Accounting Standard (Ind AS) 33 on 'Earnings Per Share':

In calculating the Basic Earnings Per Share, the Profit After Tax of ₹ **12,027.3 Crore** (Previous Year ₹ 17,769.65 Crore) has been adjusted for amounts utilised out of Shelter Assistance Reserve of ₹ **0.03 Crore** (Previous Year ₹ 3.11 Crore).

The reconciliation between the Basic and the Diluted Earnings Per Share is as follows :

Amount in ₹

Particulars	Current Year	Previous Year
Basic Earnings Per Share	67.77	102.91
Effect of outstanding Stock Options	(0.57)	(0.79)
Diluted Earnings Per Share	67.20	102.12

The Basic Earnings Per Share has been computed by dividing the adjusted Profit After Tax by the weighted average number of equity shares for the respective periods; whereas the Diluted Earnings Per Share has been computed by dividing the adjusted Profit After Tax by the weighted average number of equity shares, after giving dilutive effect of the outstanding Stock Options for the respective periods. The relevant details as described above are as follows:

Number in Crore

Particulars	Current Year	Previous Year
Weighted average number of shares for computation of Basic Earnings Per Share	177.48	172.64
Diluted effect of outstanding Stock Options	1.50	1.34
Weighted average number of shares for computation of Diluted Earnings Per Share	178.98	173.98

Notes forming part of the standalone financial statements (Continued)

37. Segment Reporting

The Corporation's main business is financing by way of loans for the purchase or construction of residential houses, commercial real estate and certain other purposes, in India. All other activities of the Corporation revolve around the main business. As such, there are no separate reportable segments, as per the Indian Accounting Standard (Ind AS) 108 on 'Segment Reporting'. Segment reporting is done in the Consolidated financial statements as prescribed by Ind AS 108.

38. Employee Benefit Plan

38.1 Defined Contribution Plans

The Corporation has recognised ₹ **14.36 Crore** (Previous Year ₹ 15 Crore) for superannuation contributions in the Statement of Profit and Loss. The contributions payable to these plans by the Corporation are at rates specified in the rules of the schemes.

38.2 Defined Benefit Plans

Provident Fund

The fair value of the assets of the provident fund and the accumulated members' corpus is ₹ **597.96 Crore** and ₹ **583.60 Crore** respectively (Previous Year ₹ 525.10 Crore and ₹ 510.73 Crore respectively). In accordance with an actuarial valuation, there is a deficit of ₹ **Nil** in the interest cost as the present value of the expected future earnings on the fund is less than the expected amount to be credited to the individual members based on the expected guaranteed rate of interest of **8.50%**. The actuarial assumptions include discount rate of **6.82%** (Previous Year 6.84%) and an average expected future period of **14 years** (Previous Year 14 years). Expected guaranteed interest rate (weighted average yield) is **8.83%** (Previous Year 8.62%).

The Corporation has recognised ₹ **25.79 Crore** (Previous Year ₹ 25.01 Crore) for provident fund contributions in the statement of profit and loss. The contributions payable to these plans by the Corporation are at rates specified in the rules of the schemes.

Characteristics of defined benefit plan

The Corporation has a defined benefit gratuity plan in India for its employees (funded). The Corporation's gratuity plan requires contributions to be made to a separately administered fund. The fund is managed by a trust which is governed by the Board of Trustees. The Board of Trustees are responsible for the administration of the plan assets and for the definition of the investment strategy.

During the year, there were no plan amendments, curtailments and settlements.

A separate trust fund is created to manage the Gratuity plan and the contribution to the trust fund is done in accordance with Rule 103 of the Income Tax Rules, 1962.

Risks associated with defined benefit plan

Gratuity is a defined benefit plan and Corporation is exposed to the following risks:

Interest rate risk: A fall in the discount rate, which is linked to the Government Securities rate, will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Notes forming part of the standalone financial statements (Continued)

Salary Risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level may increase the plan's liability.

Investment Risk: The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

Asset Liability Matching (ALM) Risk: The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

Mortality risk: Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Other Post Retirement Benefit Plan

The details of the Corporation's post-retirement benefit plans for its employees including whole-time directors are given below which is as certified by the actuary and relied upon by the auditors:

The principal assumptions used for the purpose of the actuarial valuation are as follows:

Particulars	As at March 31, 2021	As at March 31, 2020
Discount Rate	6.82%	6.84%
Return on Plan Assets	6.82%	6.84%
Salary Escalation	6.00%	6.00%

The estimate of future salary increase, considered in the actuarial valuation takes account of inflation, seniority, promotion and other relevant factors.

Amount recognised in Statement of Profit and Loss in respect of these defined benefit plans are as follows:

₹ in Crore

Particulars	Current Year	Previous Year
Service Cost:		
Current Service Cost	16.43	12.42
Interest Cost	6.81	5.53
Components of defined benefit costs recognised in profit or loss	23.24	17.95
Remeasurement on the net defined benefit liability:		
Actuarial (Gains)/Losses on Obligation For the Period	(11.92)	36.44
Return on Plan Assets, Excluding Interest Income	3.50	5.93
Components of defined benefit costs recognised in other comprehensive income	(8.42)	42.37
Total	14.82	60.32

The current service cost and the net interest expense for the year are included in the 'Employee benefits expenses' line item in the statement of profit and loss.

The remeasurement of the net defined benefit liability is included in other comprehensive income.

Notes forming part of the standalone financial statements (Continued)

The amount included in the balance sheet arising from the Corporation's obligation in respect of its defined benefit plan is as follows:

₹ in Crore

Particulars	As at March 31, 2021	As at March 31, 2020
Present value of funded / unfunded defined benefit obligation	348.83	337.87
Fair value of plan assets	274.18	238.21
Net Liability arising from defined benefit obligation	74.65	99.66

Movement in the present value of the defined benefit obligation are as follows:

₹ in Crore

Particulars	Current Year	Previous Year
Opening defined benefit obligation	337.87	284.65
Current Service Cost	16.43	12.42
Interest Cost	23.11	22.12
Benefits Paid	(16.66)	(17.76)

Notes forming part of the standalone financial statements (Continued)

Sensitivity Analysis - Gratuity Fund

₹ in Crore

Particulars	Current Year	Previous Year
Projected Benefit Obligation on Current Assumptions	270.36	261.40
Delta Effect of +1% Change in Rate of Discounting	(16.45)	(15.92)
Delta Effect of -1% Change in Rate of Discounting	18.95	18.28
Delta Effect of +1% Change in Rate of Salary Increase	18.92	18.26
Delta Effect of -1% Change in Rate of Salary Increase	(16.72)	(16.18)
Delta Effect of +1% Change in Rate of Employee Turnover	0.86	0.89
Delta Effect of -1% Change in Rate of Employee Turnover	(0.99)	(1.02)

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the balance sheet. There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

Funding Arrangement and Policy

The contribution by the Corporation to fund the liabilities of the plan has to be invested. The trustees of the plan are required to invest the funds as per the prescribed pattern of investments laid out in the income tax rules for such approved schemes. Due to the restrictions in the type of investments that can be held by the fund, it is not possible to explicitly follow an asset-liability matching strategy to manage risk actively.

Estimated amount of contribution expected to be paid to the fund during the annual period being after the Balance Sheet date is ₹ **12.95 Crore** (Previous Year ₹ 20.02 Crore).

Maturity Analysis of the Benefit Payments: From the Fund

₹ in Crore

Projected Benefits Payable in Future Years From the Date of Reporting	Current Year	Previous Year
1st Following Year	54.05	36.78
2nd Following Year	27.63	24.73
3rd Following Year	21.52	43.53
4th Following Year	18.74	19.03
5th Following Year	27.35	18.02
Sum of Years 6 to 10	78.3	84.91
Sum of Years 11 and above	258.24	241.63

Compensated absences

The actuarial liability of compensated absences of privilege leave of the employees of the Corporation is ₹ **143.05 Crore** (Previous Year ₹ 134.63 Crore).

Notes forming part of the standalone financial statements (Continued)

39. Maturity Analysis of Assets and Liabilities

40. Contingent Liabilities and Commitments

40.1 The Corporation is involved in certain appellate, judicial and arbitration proceedings (including those described below) concerning matters arising in the normal course of business including claims from revenue authorities, customers, contingencies arising from having issued guarantees to lenders or to other entities. The proceedings in respect of these matters are in various stages. Management has assessed the possible obligations arising from such claims against the Corporation, in accordance with the requirements of Indian Accounting Standard (Ind AS) 37 and based on judicial precedents, consultation with lawyers or based on its historical experiences. Accordingly, Management is of the view that based on currently available information no provision in addition to that already recognised in its financial statements is considered necessary in respect of the above.

Notes forming part of the standalone financial statements (Continued)

40.2 Given below are amounts in respect of claims asserted by revenue authorities and others:

Contingent liability in respect of income-tax demands, net of amounts provided for and disputed by the Corporation, amounts to ₹ **2,064.18 Crore** (Previous Year ₹ 2,064.18 Crore). The said amount has been paid/adjusted and will be received as refund if the matters are decided in favour of the Corporation.

Contingent liability in respect of disputed dues towards wealth tax, interest on lease tax, and payment towards employers' contribution to ESIC not provided for by the Corporation amounts to ₹ **0.13 Crore** (Previous Year ₹ 0.13 Crore).

Contingent liability in respect of disputed dues towards Service tax not provided for by the Corporation amounts to ₹ **0.80 Crore** (Previous Year ₹ 0.80 Crore).

The Management is generally unable to reasonably estimate a range of possible loss for proceedings or disputes other than those included in the estimate above as plaintiffs / parties have not claimed an amount of money damages, the proceedings are in early stages and/or there are significant factual issues to be resolved.

The Management believes that the above claims made are untenable and is contesting them.

40.3 Contingent liability in respect of guarantees and undertakings comprise of the following:

- a) Guarantees ₹ **299.50 Crore** (Previous Year ₹ 384.86 Crore).
- b) Corporate undertakings for securitisation and assignment of loans aggregated to ₹ **1,152.68 Crore** (Previous Year ₹ 1,152.72 Crore). The outflows would arise in the event of a shortfall, if any, in the cash flows of the pool of the securitised and assigned loans.

In respect of these guarantees and undertaking, the Management does not believe, based on currently available information, that the maximum outflow that could arise, will have a material adverse effect on the Corporation's financial condition.

40.4 Estimated amount of contracts remaining to be executed on capital account and not provided for (net of advances) is ₹ **861.92 Crore** (Previous Year ₹ 1,091.95 Crore).

40.5 Proposed Dividend

The Board of Directors have proposed dividend on equity shares at ₹ **23 per share** at their meeting held on May 7, 2021 (Previous Year ₹ 21 per share). As per the Companies (Accounting Standard) Amendment Rules, 2016, the dividend will be recorded after the approval in the ensuing Annual General Meeting.

41. Movement in Impairment loss allowance (Expected Credit Loss)

Particulars	₹ in Crore
At 31 March 2019	5,880.38
Arising during the year	6,112.10
Utilised	(994.62)
At 31 March 2020	10,997.86
Arising during the year	3,416.00
Utilised	(1,371.97)
At 31 March 2021	13,041.89

The Corporation has made provision towards loans and advances, trade receivable, investments, inter corporate deposits and other financial assets.

Impairment on loans arising during the years includes impairment of ₹ **468 Crore** (Previous Year ₹ 199 Crore) relating to interest on Credit Impaired Assets, which is netted off from interest income in the Statement of Profit and Loss.

42.2 Method used for accounting for share based payment plan

The stock options granted to employees pursuant to the Corporation's Stock Options Schemes, are measured at the fair value of the options at the grant date using Black-Scholes model. The fair value of the options determined at grant date is recognised as employee compensation cost over the vesting period on straight line basis over the period of option, based on the number of grants expected to vest, with corresponding increase in equity.

42.3 Movement during the year in the options under ESOS-20, ESOS-17, ESOS-14, ESOS-11, ESOS-08 and ESOS-07:

Details of Activity in the options as at March 31, 2021

Particulars	Number of options					
	ESOS-20	ESOS-17	ESOS-14	ESOS-11	ESOS-08	ESOS-07
Outstanding at the beginning of the year	-	3,68,40,914	17,71,361	839	4,874	5,287
Granted during the year	3,84,21,531	-	-	-	-	-
Exercised during the year	-	62,87,028	17,57,168	839	-	-

Weighted average remaining contractual life	5.99	2.25	0.85	-	-	-

Notes forming part of the standalone financial statements (Continued)

Details of Activity in the options as at March 31, 2020

Particulars	Number of options				
	ESOS-17	ESOS-14	ESOS-11	ESOS-08	ESOS-07
Outstanding at the beginning of the year	4,04,44,710	31,47,541	4,593	4,874	5,287
Granted during the year	1,57,000	-	-	-	-
Exercised during the year	37,20,484	13,74,909	3,754	-	-
Lapsed during the year	40,312	1,271	-	-	-
Outstanding at the end of the year	3,68,40,914	17,71,361	839	4,874	5,287
Unvested at the end of the year	8,57,220	-	-	-	-
Exercisable at the end of the year	3,59,83,694	17,71,361	839	-	-
Weighted average price per option	1,573.22	5,073.25	3,177.50	1,350.60	2,149.00
Weighted average remaining contractual life	3.26	0.55	-	-	-

With effect from August 21, 2010, the nominal face value of equity shares of the Corporation was sub-divided from ₹ 10 per share to ₹ 2 per share. Each option exercised under ESOS-07, ESOS-08, ESOS-11 and ESOS-14 entitles 5 equity shares of ₹ 2 each. An option exercised under ESOS-17 entitles 1 equity share of ₹ 2 each.

42.4 Fair Value Methodology

The fair value of options have been estimated on the date of grant using Black-Scholes model as under:

The key assumptions used in Black-Scholes model for calculating fair value under ESOS-2020, ESOS-2017, ESOS-2014, ESOS-2011, ESOS-2008 and ESOS-2007, as on the date of grant, are as follows:

Particulars	ESOS-2020	ESOS-2017*	ESOS-2014	ESOS-2011	ESOS-2008	ESOS-2007
Risk-free interest rate (p.a.)	4.02%-5.76%	6.62%	8.28%	8.06%	6.94%	7.70%
Expected life	Upto 4 years	Upto 3 years	Upto 3 years	Upto 2 years	Upto 2 years	Upto 2 years
Expected volatility of share price	21%	16%	15%	15%	29%	19%
Expected growth in dividend (p.a.)	20%	20%	20%	20%	20%	20%
The weighted average fair value, as on the date of grant (per Stock Option)	₹ 220.18	₹ 275.40	₹ 1,035.91	₹ 474.56	₹ 238.79	₹ 307.28

Volatility is measure of the amount by which price has fluctuated or is expected to fluctuate during a period. The measure of volatility used in Black-Scholes Model is the annualised standard deviation of the continuously compounded rates of return on stock over a period of time.

* The stock based compensation expense determined under fair value based method and charged to the statement of profit and loss is ₹ 338.42 Crore (Previous Year ₹ 13.64 Crore).

44. Financial instruments

44.1 Capital Management

The Corporation maintains an actively managed capital base to cover risks inherent in the business and is meeting the capital adequacy requirements of National Housing Bank (NHB). The adequacy of the Corporation's capital is monitored using, among other measures, the regulations issued by NHB.

The Corporation has complied in full with all its externally imposed capital requirements over the reported period.

Particulars	₹ in Crore	
	March 31, 2021	March 31, 2020
Net debt	4,40,595.07	4,15,959.76
Total equity	1,08,782.65	86,158.06
Net debt to equity ratio	4.05 : 1	4.83 : 1

Loan covenants

Under the terms of the major borrowing facilities, the Corporation has complied with the covenants throughout the reporting period.

44.2 Financial Risk Management

The Corporation has to manage various financial risks associated with its business. These risks include liquidity risk, foreign exchange risk, interest rate risk and counterparty risk.

The Board approved Financial Risk Management and ALM Policy sets out the framework and limits for management of the aforementioned risks, in accordance with which the Corporation manages them on an ongoing basis.

Liquidity risks are managed through a combination of strategies like managing tenors in line with the regulations on Asset Liability Management, and maintaining adequate liquidity cover. Interest rate risks are managed by entering into interest rate swaps. The currency risk on borrowings is actively managed mainly through a combination of principal only swaps, forward contracts, option contracts. Counterparty risk is reviewed periodically to ensure that exposure to various counterparties is well diversified and within the limits fixed by the Derivative Committee. It is also managed by entering into collateralization arrangements with banking counterparties to the extent possible.

44.3.1 Fair Value Hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Corporation has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

₹ in Crore

Financial assets and liabilities measured at fair value - recurring fair value measurements	Level 1	Level 2	Level 3	Total
As at March 31, 2021

There has been no transfers between level 1, level 2 and level 3 for the year ended March 31, 2021 and 2020, other than those disclosed in note 44.3.4.

44.3.2 Valuation technique used to determine fair value

The fair value of a financial instrument on initial recognition is normally the transaction price (fair value of the consideration given or received). Subsequent to initial recognition, the Corporation determines the fair value of financial instruments that are quoted in active markets using the quoted bid prices (financial assets held) or quoted ask prices (financial liabilities held) and using valuation techniques for other instruments. Valuation techniques include discounted cash flow method, market comparable method, recent transactions happened in the company and other valuation models.

The Corporation measures financial instruments, such as investments (other than equity investments in Subsidiaries, Joint Ventures and Associates) at fair value.

The Corporation uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Notes forming part of the standalone financial statements (Continued)

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to Level 3, as described below.

Quoted prices in an active market (Level 1): Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, units of mutual funds (open ended) and traded bonds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Valuation techniques with observable inputs (Level 2): The fair value of financial instruments that are not traded in an active market for example, Securities receipts, Mutual Funds (close ended) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2, this level of hierarchy includes financial assets, measured using inputs other than quoted prices included within Level 1 that are observable for the asset, either directly (i.e; as prices) or indirectly (i.e; derived from prices).

Valuation techniques with significant unobservable inputs (Level 3): This level of hierarchy includes financial assets measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data, this level of hierarchy includes unlisted equity instruments, venture fund units and security receipts.

44.3.3 Valuation Process - Equity Instrument Level 3

When the fair value of equity investments cannot be measured based on quoted prices in active markets, their fair values are measured using valuation techniques including the Discounted Cash Flow (DCF) model, market comparable method and based on recent transactions happened in respective companies. The inputs to these models are taken from observable market where possible, but where this is not feasible, a degree of judgement is exercised in establishing fair values. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

For certain unquoted equity instruments recent information is insufficient to measure fair value and cost represents the best estimate of fair value. These investments in equity instruments are not held for trading.

Notes forming part of the standalone financial statements (Continued)

44.3.4 Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the period ending March 31, 2021: ₹ in Crore

Particulars	Equity securities	Preference Shares	Debentures	Venture Funds	Security Receipts	Total
As at March 31, 2019	476.73	0.45	376.94	711.44	6.99	1,572.55
Acquisitions	750.00	-	93.50	138.93	-	982.43

As at March 31, 2021	1,016.99	-	66.42	996.73	0.30	2,080.43
Unrealised Gains/(losses) recognised in profit and loss related to assets and liabilities held at the end of the reporting period						
For the year ended March 31, 2020	(46.87)	0.33	14.62	(23.71)	(4.54)	(60.17)
For the year ended March 31, 2021	87.00	0.65	(38.50)	101.33	(0.42)	150.05

44.3.5 Valuation inputs and relationships to fair value

The following table summarises the quantitative information about the significant unobservable inputs used in level 3 fair value measurements. See (ii) above for the valuation techniques adopted. ₹ in Crore

Particulars				Sensitivity	
	March 31, 2021	March 31, 2020	Significant unobservable inputs*	Favourable	Un-favourable
Unquoted equity shares	290.24	419.66	Valuation Factor	A positive change in the Valuation Factor by 10% increases the fair value by ₹ 29.83 crore (Previous Year ₹ 42.53 crore).	An adverse change in the Valuation Factor by 10% reduces the fair value by ₹ 29.58 crore (Previous Year ₹ 42.25 crore).
Locked in Shares of Yes Bank Ltd	726.75	1,018.50	Valuation Factor	A positive change in the Valuation Factor by 10% increases the fair value by ₹ 72.68 crore (Previous Year ₹ 101.85 crore).	An adverse change in the Valuation Factor by 10% reduces the fair value by ₹ 72.68 crore (Previous Year ₹ 101.85 crore).
Compulsorily Convertible Preference Shares	-	0.78	Valuation Factor	A positive change in the Valuation Factor by 10% increases the fair value by ₹ 0.08 crore in FY20.	An adverse change in the Valuation Factor by 10% reduces the fair value by ₹ 0.08 crore in FY20.
Convertible Debentures	66.42	232.20	Valuation Factor	A positive change in the Valuation Factor by 10% increases the fair value by ₹ 6.64 crore (Previous Year ₹ 22.94 crore).	An adverse change in the Valuation Factor by 10% reduces the fair value by ₹ 6.64 crore (Previous Year ₹ 22.94 crore).
Venture Funds	996.73	775.21	Net Asset Value	Increase in NAV by 10% increases the fair value by ₹ 88.69 crore (Previous Year ₹ 70.45 crore).	Decrease in NAV by 10% reduces the fair value by ₹ 89.02 crore (Previous Year ₹ 73.86 crore).
Security Receipts	0.30	1.43	Net Asset Value	Increase in NAV by 10% increases the fair value by ₹ 0.03 crore (Previous Year ₹ 0.14 crore).	Decrease in NAV by 10% reduces the fair value by ₹ 0.03 crore (Previous Year ₹ 0.14 crore).

* There were no significant inter-relationships between unobservable inputs that materially affect fair values.

Notes forming part of the standalone financial statements (Continued)

Valuation Factor includes Discounted Cash Flows, Equity Multiples such as PE Ratio, Price to Book Value Ratio and EV/EBITDA Ratio.

Sensitivity data are calculated using a number of techniques, including analysing price dispersion of different price sources, adjusting model inputs to reasonable changes within the fair value methodology.

44.3.6 Fair value of the Financial Assets that are not measured at fair value and Fair Value hierarchy

Except as detailed in the following table, the carrying amount of financial assets and financial liabilities recognised in the financial statements approximate their fair value.

₹ in Crore

Particulars	As at 31 March 2021			As at 31 March 2020		
	Carrying Value	Fair Value	Fair Value hierarchy	Carrying Value	Fair Value	Fair Value hierarchy
Financial Assets at amortised cost						
Government securities	22,567.13	22,647.95	Level 2	14,268.27	14,531.94	Level 2
Debentures	803.50	818.51	Level 3	423.62	424.6	Level 3
Pass-through Certificates	18.33	18.24	Level 3	22.57	22.72	Level 3
Total Financial Assets	23,388.96	23,484.70		14,714.46	14,979.26	
Financial liabilities at amortised cost						
Non Convertible Debentures*	1,48,474.04	1,54,281.10	Level 2	1,42,033.78	1,43,398.24	Level 2
Synthetic Rupee Denominated Bonds	2,800.00	2,855.55	Level 2	6,100.00	6,075.28	Level 2
Subordinated Liabilities	4,000.00	4,357.88	Level 2	5,000.00	5,281.22	Level 2
Deposits	1,50,501.61	1,52,323.81	Level 2	1,32,664.37	1,33,538.37	Level 2
Total Financial Liabilities	3,05,775.65	3,13,818.34		2,85,798.15	2,88,293.11	

* For the purpose of above disclosure, entire amount of Non Convertible Debentures has been considered.

44.3.6.1 **Note:** The Fair Value of the financial assets and financial liabilities are considered at the amount, at which the instrument could be exchanged in current transaction between willing parties, other than in forced or liquidation sale.

44.3.6.2 Loans

Substantially all loans reprice frequently, with interest rates reflecting current market pricing, the carrying value of these loans amounting to ₹ **4,85,294.26 Crore** (Previous year ₹ 4,39,943.28 Crore) approximates their fair value.

44.3.6.3 Other Financial Assets and Liabilities

With respect to Bank Balances and Cash and Cash Equivalents (Refer Note 5 and 6), Trade Receivables (Refer Note 8), Other Financial Assets (Refer Note 11), Trade Payables (Refer Note 17) and Other Financial Liabilities (Refer Note 22), the carrying value approximates the fair value.

44.3.6.4 Non Convertible Debentures fair value has been computed using the Fixed Income Money Market and Derivatives Association of India ('FIMMDA') data on corporate bond spreads.

44.4 Credit Risk

Credit risk is the risk of loss that may occur from the failure of any party to abide by the terms and conditions of any contract, principally the failure to make required payments of amounts due to the Corporation. In its lending operations, the Corporation is principally exposed to credit risk.

The credit risk is governed by various Product Policies. The Product Policy outlines the type of products that can be offered, customer categories, the targeted customer profile and the credit approval process and limits.

Credit Approval Authorities

The Board of Directors has delegated credit approval authority to a sanctioning committee with approval limits which is approved by the Managing Director.

Credit Risk Assessment Methodology

44.4.1 Corporate Portfolio

The Corporation has an established credit appraisal procedure which has been detailed in Corporate Loans Policy and Developer Loans Policy respectively. The policies outline appraisal norms including assessment of quantitative and qualitative parameters along with guidelines for various products. The policy also includes process for approval of Loans which are subject to review and approval by Sanctioning Committees.

Corporation carries out a detailed analysis of funding requirements, including normal capital expenses, long-term working capital requirements and temporary imbalances in liquidity. A significant portion of Corporate Finance loans are secured by a lien over appropriate assets of the borrower.

Notes forming part of the standalone financial statements (Continued)

Borrower risk is evaluated by considering:

- the risks and prospects associated with the industry in which the borrower is operating (industry risk);
- the financial position of the borrower by analysing the quality of its financial statements, its past financial performance, its financial flexibility in terms of ability to raise capital and its cash flow adequacy (financial risk);
- the borrower's relative market position and operating efficiency (business risk);
- the quality of management by analysing their track record, payment record and financial conservatism (management risk); and
- the risks with respect to specific projects, both pre-implementation, such as construction risk and funding risk, as well as post-implementation risks such as industry, business, financial and management risks related to the project (project risk).

Restructuring, ECLGS and Moratorium Guidelines issued by RBI are adopted for loans on a selective basis, after assessing the impact of COVID-19 pandemic on their businesses.

44.4.2 Lease rental discounting

Loan is given against assured sum of rentals/receivables.

The risk assessment procedure include:

- carrying out a detailed evaluation of terms of Lease / Leave and License Agreements such as lease rental receivables, term of the leases and periodicity of rentals.
- conducting due diligence on and appraisal of Borrowers / Lessors and Lessees including due diligence of project/property. These Loans are secured by project property and serviced from rentals/receivables.

44.4.3 Construction Finance

Loan given for construction of Residential/Commercial properties.

The Corporation has a framework for appraisal and execution of Construction finance transactions detailed in Developer Loans Policy. The Corporation believes that this framework creates optimal risk identification, allocation and mitigation and helps minimize residual risk.

The project finance approval process includes detailed evaluation of technical, commercial, financial, legal with respect to the projects and the Borrower Group's financial strength and experience.

As part of the appraisal process, a note is generated, which identifies each of the project risks, mitigating factors and residual risks associated with the project. After credit approval, an Offer Letter is issued to the borrower, which outlines the principal financial terms of the proposed facility, Borrowers/Security providers obligations, conditions precedent to disbursement, undertakings from and covenants on the borrower.

After completion of all formalities by the borrower, a loan Transaction documents are entered into with the borrower.

Construction finance loans are generally fully secured and have full recourse against the borrower. In most cases, the Corporation has mortgage of Project financed. Security typically include project property and receivables of the project property, as well as other tangible assets of the borrower, both present and future. The Corporation also takes additional credit comforts such as corporate or personal guarantees and shortfall undertaking from one or more sponsors of the project.

The Corporation requires the borrower to submit periodic reports and continue to monitor the exposure until loans are fully repaid.

Further since both Lease Rental Discounting and Construction Finance Facilities are mostly serviced from receivables from the projects/property financed, all the cash flows are charged to the Corporation, and are ring fenced by way of Escrow mechanism. Under this mechanism all such receivables flow into Escrow Account from where amounts are directly credited into the Corporation's account.

Notes forming part of the standalone financial statements (Continued)

During the year, additional credit checks were introduced in the non-retail policy in accordance with certain regulatory measures announced by RBI to mitigate the burden of debt servicing as a result of disruptions in cash flow due to the COVID-19 pandemic.

Restructuring of Accounts

The economic fallout on account of COVID-19 pandemic has led to significant financial stress for many borrowers. Considering the above, with the intent to facilitate revival and to mitigate the impact on ultimate borrowers, Reserve Bank of India (RBI) introduced measures under the Resolution Framework for COVID-19. As per the RBI Framework, the Corporation established a policy to provide resolution for eligible borrowers having stress on account of COVID-19 in line with the RBI Guidelines.

As advised under the said circular and Corporation's policy, the eligibility of customers was assessed, so as to understand the extent of financial stress caused due to COVID-19, i.e. delay in construction, sales and consequent cash flow mismatch, duly supported by the documentary evidence. In addition to assessing the impact of stress, the Resolution framework was discussed with the eligible borrower and existing lenders (in case of multiple lenders) prior to invocation of Resolution plan. The Resolution Framework offered to ensure that the servicing of the restructured loan is not likely to be impacted. The implementation of Resolution plan is under process for respective accounts in line with the time lines prescribed in the said Circular.

ECLGS

During the current year, the Government of India through Ministry of Finance, Department of Financial Services, had introduced the Emergency Credit Line Guarantee Scheme (ECLGS), for providing 100% guarantee coverage for additional working capital term loans (in case of Banks and FIs) and additional term loans (in case of NBFCs) upto 20% of their entire outstanding credit (upto limits specified under the Scheme) as on February 29, 2020.

ECLGS was offered to borrowers eligible as per the criteria specified in the scheme and Corporation's Board approved policy. The Corporation carried out credit assessment of eligible borrowers to assess the requirement of the borrower and the qualifying criteria as per criteria as specified by National Credit Guarantee Trustee Company Limited (NCGTC).

Moratorium

The RBI had announced Moratorium for 6 months on repayments for the period March 2020 to August 2020 for term loans and working capital facilities outstanding as on February 29, 2020. This was part of the regulatory measures adopted to mitigate the burden of debt servicing brought about by disruptions on account of COVID-19 pandemic and to ensure continuity of viable businesses. As part of the scheme and as per Corporation's Board approved policy, the Corporation has provided moratorium to eligible borrowers.

44.4.4 Individual Loans

Our customers for retail loans are primarily low, middle and high-income, salaried and self-employed individuals. The Corporation's credit officers evaluate credit proposals on the basis of active credit policies as on the date of approval. The criteria typically include factors such as the borrower's income & obligations, the loan-to-value ratio and demographic parameters subject to regulatory guidelines. Any deviations need to be approved at the designated levels.

The various process controls such as PAN Number Check, CERSAI database scrubbing, Credit Bureau Report analysis are undertaken prior to approval of a loan. In addition External agencies such as field investigation agencies facilitate a comprehensive due diligence process including visits to offices and homes.

The Corporation analyses the portfolio performance of each product segment regularly, and use these as inputs in revising our product programs, target market definitions and credit assessment criteria to meet our twin objectives of combining volume growth and maintenance of asset quality. Individual loans are secured by the mortgage of the borrowers property.

Notes forming part of the standalone financial statements (Continued)

Retail

During the current year, additional Credit Checks were introduced in the Retail Policy in accordance with certain Regulatory measures announced by RBI to mitigate the burden of debt servicing as a result of disruptions in cash flow due to the COVID-19 pandemic.

Restructuring of Accounts

The eligibility of customers was assessed to understand the extent of financial stress caused due to the COVID-19 pandemic i.e loss of jobs pay cut, business shut down etc. In addition, the due diligence process was further strengthened to assess the impact of stress such as appraising income documents, bank statement and visits at work place etc. and ensured that Loan to Value ratios are not negatively impacted and underlying collateral is enforceable. The borrowers were counseled as regards the Resolution Framework to minimise the risk of default, post restructuring.

Emergency Credit Linked Guarantee Scheme (ECLGs)

Since the ECLGs facility was available to customers in business segment /MSME, the regular credit checks, as already in place for such customers, were used to assess the impact of stress in the borrower's books of account. The qualifying criteria as per NCGTC was strictly adhered to. In addition, borrower's income tax return/books of account / Chartered Accountant certificate / Collection of GSTIN nos. end use certificate etc were appraised to assess and qualify under the norms. Such loans were appraised by a dedicated team to ensure that Loan to Value ratios are not negatively impacted / and underlying collateral is enforceable.

Credit Risk

The Corporation measures, monitors and manages credit risk at an individual borrower level and at the group exposure level for corporate borrowers. The credit risk for individual borrowers is being managed at portfolio level for both Housing Loans and Non Housing Loans. The Corporation has a structured and standardized credit approval process, which includes a well-established procedure of comprehensive credit appraisal. The Risk Management Policy addresses the recognition, measurement, monitoring and reporting of the Credit risk. The Corporation has additionally taken the following measures:-

- Lower borrower group exposure limits.
- Establishment of a separate Policy Implementation & Process Monitoring (PIPM) team to enhance focus on monitoring of process implementation at the branches and to facilitate proactive action wherever required.
- Enhanced monitoring of Retail product portfolios through periodic review.

44.4.5 Risk Management and Portfolio Review

The Corporation ensures effective monitoring of credit facilities through a risk-based asset review framework under which the frequency of asset review is determined depending on the risk associated with the product. For both Corporate and Individual borrowers, the Operations team verifies adherence to the terms of the credit approval prior to the commitment and disbursement of credit facilities. The Operations team monitors compliance with the terms and conditions for credit facilities prior to disbursement. It also reviews the completeness of documentation, creation of security and compliance with regulatory guidelines.

The Credit Risk Management team of the Corporation, regularly reviews the credit quality of the portfolio and various sub-portfolios. A summary of the reviews carried out by the Credit Risk Management is submitted to the Branches & Management Team for its information. Exposure to non-individual entities in stress is reviewed frequently by a credit review committee consisting of senior management personnel.

The Policy implementation and Process Monitoring team reviews adherence to policies and processes, carries out audit and briefs the Audit Committee and the Board periodically.

44.4.6 Collateral and other credit enhancements

The Corporation holds collateral or other credit enhancements to cover its credit risk associated with its Loans and Inter corporate deposits, credit risk associated are mitigated because the same are secured against the collateral. The main types of collateral obtained are, as follows:

Notes forming part of the standalone financial statements (Continued)

Registered / equitable mortgage of property, Non disposal undertakings in respect of shares, pledge of shares, units, other securities, assignment of life insurance policies, Hypothecation of assets, Bank guarantees, company guarantees or personal guarantees, Negative lien, Assignment of receivables, Liquidity Support Collateral [e.g. DSRA (Debt Service Reserve Account), Lien on Fixed Deposit].

The carrying amount of loans as at March 31, 2021 is ₹ **4,98,298.03 Crore** (Previous Year ₹ 4,50,902.76 Crore) which best represent the maximum exposure to credit risk, the related Expected credit loss amount to ₹ **13,003.77 Crore** (Previous Year ₹ 10,959.48 Crore). The Corporation has right to sell or pledge the collateral in case borrower defaults.

44.5 Liquidity Risk

Maturities of Financial Liabilities

The tables below analyse the Corporation's financial liabilities into relevant maturity groupings based on their contractual maturities for: all non-derivative financial liabilities, and net and gross settled derivative financial instruments for which the contractual maturities are essential for an understanding of the timing of the cash flows.

The amounts disclosed in the table are the contractual undiscounted cash flows.

44.6 Market Risk

44.6.1 Foreign Currency Risk

The Corporation operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD and JPY. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the company's functional currency i.e. INR. The objective of the hedges is to minimise the volatility of the INR cash flows.

The Corporation's risk management policy allows it to keep the foreign currency risk open upto 5% of the total borrowings.

The Corporation uses a combination of foreign currency swaps, option contracts and foreign exchange forward contracts to hedge its exposure in foreign currency risk. The Corporation designates intrinsic value of the forward contracts and option contracts as hedging instruments. In case the hedge effectiveness is 100%, the change in the intrinsic value of the forward contracts or the option contracts and the change in carrying value of the underlying foreign currency liability are compared and the difference is recognised in cash flow hedge reserve. The changes in time value that relate to the forward contracts or option contracts are deferred in the costs of hedging reserve and recognised against the related hedged transaction when it occurs. Amortisation of forward points through cost of hedge reserve which is pertaining to the forward contracts is recognised in the statement of profit and loss over life of the forward contracts. During the years ended March 31, 2021 and 2020, the Corporation did not have any hedging instruments with terms which were not aligned with those of the hedged items.

The spot component of forward contracts is determined with reference to relevant spot market exchange rates. The differential between the contracted forward rate and the spot market exchange rate is defined as the forward points.

The intrinsic value of foreign exchange option contracts is determined with reference to the relevant spot market exchange rate. The differential between the contracted strike rate and the spot market exchange rate is defined as the intrinsic value. Time value of the option is the difference between fair value of the option and the intrinsic value.

44.6.1.1 Foreign Currency Risk Exposure

The Corporation's exposure to foreign currency risk at the end of the reporting period expressed in INR, are as follows: ₹ in Crore

Particulars	March 31, 2021					March 31, 2020				
	USD	JPY	SGD	GBP	AED	USD	JPY	SGD	GBP	AED
<i>Financial Liabilities</i>

Notes forming part of the standalone financial statements (Continued)

44.6.1.2 Foreign Currency Sensitivity Analysis:

The sensitivity of profit or loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments and the impact on other components of equity arises from foreign exchange forward contracts, foreign exchange option contracts designated as cash flow hedges.

₹ in Crore

Particulars	Impact on other components of equity	
	March 31, 2021	March 31, 2020
USD sensitivity		
INR/USD -Increase by 1% *	(0.71)	(1.25)

JPY sensitivity		
INR/JPY -Increase by 1% *	0.30	19.11
INR/JPY -Decrease by 1% *	(0.30)	(19.11)

Note: Balances in SGD, GBP and AED are relating to foreign branches, it does not have material impact in statement of Profit and Loss, accordingly the same is not considered for sensitivity analysis.

* Assuming all other variable is constant

44.6.1.3 Hedging Policy

The Corporation's hedging policy only allows for effective hedging relationships to be considered as hedges as per the relevant Ind AS. Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument. The Corporation enters into hedge relationships where the critical terms of the hedging instrument match with the terms of the hedged item, and so a qualitative and quantitative assessment of effectiveness is performed.

Cash Flow Hedge

	March 31, 2021	March 31, 2020	
Interest Rate Swap	35.99	43.45	Finance Cost

44.6.1.4 Hedge Ratio

The foreign exchange forward, options and currency swap contracts are denominated in the same currency as the highly probable future foreign currency principal and interest payments, therefore the hedge ratio is 1:1. The notional amount of interest rate swap is equal to the portion of variable rate loans that is being hedged, and therefore the hedge ratio for interest rate swap is also 1:1. The entire amount of foreign currency loan is designated as hedge of net investment and hence the hedge ratio is 1:1.

44.6.2 Interest Rate Risk

The Corporation's core business is doing housing loans. The Corporation raises money from diversified sources like deposits, market borrowings, term Loan, foreign currency borrowings amongst others. In view of the financial nature of the assets and liabilities of the Corporation, changes in market interest rates can adversely affect its financial condition. The fluctuations in interest rates can be due to internal and external factors. Internal factors include the composition of assets and liabilities across maturities, existing rates and re-pricing of various sources of borrowings. External factors include macro economic developments, competitive pressures, regulatory developments and global factors. The rise or fall in interest rates impact the Corporations Net Interest Income depending on whether the Balance Sheet is asset sensitive or liability sensitive.

The Corporation uses traditional gap analysis report to determine the Corporation's vulnerability to movements in interest rates. The Gap is the difference between Rate Sensitive Assets (RSA) and Rate Sensitive Liabilities (RSL) for each time bucket. It indicates whether the Corporation is in a position to benefit from rising interest rates by having a positive Gap (RSA > RSL) or whether it is in a position to benefit from declining interest rates by a negative Gap (RSL > RSA). The Corporation also fixes tolerance limits for the same as per the ALM Policy.

44.6.2.1 Interest Rate Risk Exposure

The break-up of the Corporation's borrowing into variable rate and fixed rate at the end of the reporting period are as below:

Particulars	March 31, 2021	March 31, 2020
Variable rate borrowings	73%	70%
Fixed rate borrowings	27%	30%
Total borrowings	100%	100%

The break-up of fixed rate and variable rate borrowings are calculated as a percentage of total liabilities of the Corporation as on the date.

Notes forming part of the standalone financial statements (Continued)

44.6.2.2 Sensitivity

The impact of 10 bps change in interest rates on financial assets and liabilities on the Profit after tax for the year ended March 31, 2021 is ₹ **29.87 Crore** (Previous year ₹ 40.58 Crore).

44.6.3 Price Risk

44.6.3.1 Exposure

The Corporation's exposure to equity securities price risk arises from investments held by the Corporation and classified in the balance sheet either as fair value through OCI or at fair value through profit or loss.

To manage its price risk arising from investments in equity securities, the Corporation diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Corporation.

Some of the Corporation's equity investments are publicly traded and are included in the NSE Nifty 50 index.

44.6.3.2 Sensitivity

The table below summarises the impact of increases/decreases of the index on the Corporation's equity and profit for the period. The analysis is based on the assumption that the equity index had increased by 10% or decreased by 10% with all other variables held constant, and that all the Corporation's equity instruments moved in line with the index.

₹ in Crore

Particulars	Impact on profit before tax		Impact on OCI before tax	
	March 31, 2021	March 31, 2020	March 31, 2021	March 31, 2020
NSE Nifty 50 – increase 10%	89.04	19.15	627.90	391.61
NSE Nifty 50 – decrease 10%	(89.04)	(19.15)	(627.90)	(391.61)

Profit for the period would increase/decrease as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would increase/decrease as a result of gains/losses on equity securities classified as fair value through other comprehensive income.

44.6.4 Interest Rate Benchmark Reform

As on March 31, 2021, the Corporation has foreign currency borrowings of USD 1,377.45 million and JPY 53,200 million, on which it pays USD LIBOR (London Inter-bank Offered Rate) and JPY LIBOR respectively. The Corporation has undertaken currency swaps and forward contracts of notional amount of USD 1,365 million and JPY 53,200 million, Coupon Only Swaps of ₹ 1,030 Crore, USD Interest rate Swaps of ₹ 8,722 Crore, and foreign currency arrangements of USD 12.45 million to hedge the foreign currency and fx interest rate risks. The valuations of these hedges are impacted by, among other variables, changes in USD LIBOR. The effective interest payable on the loan linked to JPY LIBOR may change based on changes to the benchmark.

Following the commencement of the LIBOR discontinuation process by the Financial Conduct Authority (FCA) and the directions from the Financial Stability Board, an international body that monitors and makes recommendations intended to promote financial stability, working groups led by central banks in the jurisdictions of the LIBOR currencies have identified LIBOR replacement near risk free rates, and are involved in designing plans for all market participants to use these rates across the derivative and cash markets. The ICE Benchmark Administration Limited (“IBA”), the authorized administrator of LIBOR, published on March 5, 2021 the decision to cease publication of overnight, one month, six month and twelve month USD LIBORs after June 30, 2023, and JPY LIBOR after December 31, 2021. The date for spread adjustment i.e the median difference between the risk free rate and LIBOR over the previous five years, has also been fixed for March 5, 2021.

The Corporation has been taking steps to ease into the transition and has already adhered to the International Swaps and Derivatives Association (ISDA) 2020 IBOR Fallbacks Protocol and the IBOR Fallbacks

Notes forming part of the standalone financial statements (Continued)

Supplement. The Protocol allows market participants to amend the terms of their legacy derivatives contracts to include these new Cessation Events, Pre-Cessation Events, and fallbacks for legacy derivatives. All the documentation for existing and forthcoming ECBs (External Commercial Borrowings) would follow the guidance by the Asia Pacific Loan Market Association (APLMA) to appropriately reflect these changes.

45. The following disclosures have been given in terms of Notification no. RBI/2019-20/220 DOR.No.BP. BC.63/21.04.048/2019-20 dated April 17, 2020 issued by the RBI in connection with COVID-19 Regulatory Package - Asset Classification and Provisioning

₹ in Crore

Outstanding as on March 31, 2021 on account of all such loans where moratorium benefit was extended by the Corporation upto previous year end and further upto August 31, 2020.

*Outstanding as on March 31, 2020 on account of all such loans where moratorium benefit was extended by the Corporation as at the previous year end.

45.1 Outstanding as on March 31, 2021 and March 31, 2020 respectively on account of all loans where moratorium benefit was extended by the Corporation, that were in SMA/ overdue categories just before granting of Moratorium.

45.2 The Outstanding as on March 31, 2021 and March 31, 2020 in respect of loans where in an asset classification benefit was extended due to Moratorium under the circular. The Corporation was required to carry an additional general provision for the purposes of regulatory submission in respect of such loans. The additional provision required as at March 31, 2020 amounted to ₹10.45 Crore whereby the total regulatory provision amounted to ₹11.13 Crore. Post the moratorium period, the movement of ageing has been at actuals. There are NIL accounts where asset classification benefit is extended till March 31, 2021.

45.3 The Corporation has made adequate provision for impairment loss allowance (as per ECL model) for the years ended March 31, 2021 & March 31, 2020.

46. Disclosure of Penalties imposed by NHB and other regulators

During FY 2020-21, the National Housing Bank (NHB) imposed a monetary penalty of ₹ 1,50,000 plus GST on the Corporation for non-compliance with two provisions of the Housing Finance Companies (NHB) Directors, 2010 pertaining to FY 2018-19. The Corporation has paid the said penalty.

Barring the above, during FY 2020-21, there were no penalties imposed by NHB or any other regulators.

47. Events after the reporting period

There have been no events after the reporting date that require disclosure in these financial statements.

In terms of the requirement as per RBI notification no. RBI/2019-20/170 DOR (NBFC).CC.PD. No.109/22.10.106/2019-20 dated March 13, 2020 on Implementation of Indian Accounting Standards, Housing Finance Companies (HFCs) are required to create an impairment reserve for any shortfall in impairment allowances under Ind AS 109 and Income Recognition, Asset Classification and Provisioning (IRACP) norms (including provision on standard assets). The impairment allowances under Ind AS 109 made by the corporation exceeds the total provision required under IRACP (including standard asset provisioning), as at March 31, 2021 and accordingly, no amount is required to be transferred to impairment reserve.

Provisions required as per IRACP norms amount to ₹ 5,490.51 Crore. The amounts tabulated above include ₹ 505.30 Crore towards unrealised interest on substandard accounts.

50.6 Institutional set-up for Liquidity Risk Management

The Liquidity Risk Management Framework of the Corporation is managed in accordance with its Board approved Financial Risk Management and ALM Policy and prescribed guidelines. The policy framework and the operational parameters are also regularly reviewed by the Asset and Liability Management Committee (ALCO) in the context of extant and expected financial market conditions and the performance of the Corporation.

The cash flow requirements of the Corporation are monitored and managed on a daily basis. The Corporation regularly monitors the gap between maturing assets and liabilities in the very near term and also across all time buckets. While regulatory gaps are periodically monitored, the Corporation also maintains internal thresholds to monitor these gaps across tenors while planning for future funding requirements. The Corporation, at all times, maintains adequate surplus liquidity in various asset classes, to meet all its scheduled obligations, fund new business requirements and mitigate risks of any unexpected developments in the financial markets.

The Corporation has in place a well-defined front-mid and back office mechanism with specific roles and responsibilities defined for each function. Further all the processes are system driven with sufficient checks and balances in place.

51. Disclosure in terms of in accordance with Master Direction – Non-Banking Financial Company – Housing Finance Company (Reserve Bank) Directions, 2021 dated February 17, 2021 issued by the Reserve Bank of India read with RBI Circular No. RBI/DNBS/2016-17/49 Master Direction DNBS. PPD.01/66.15.001/2016-17 on Monitoring of frauds in NBFCs

There were **12 cases** (Previous Year 39 cases) of frauds reported during the year where amount involved was ₹ **3.07 crore** (Previous Year ₹ 22.34 crore).

52. Disclosure in terms of RBI Circular No. RBI/2021-22/17 DOR.STR.REC.4/21.04.048/2021-22 dated 7 April 2021 on Asset Classification and Income Recognition following the expiry of Covid-19 regulatory package

In accordance with the RBI Circular No. RBI/2021-22/17 DOR.STR.REC.4/21.04.048/2021-22 dated April 7, 2021 and the methodology for calculation of interest on interest based on guidance issued by Indian Banks' Association, the Corporation has put in place a Board approved policy to refund / adjust interest on interest charged to borrowers during the moratorium period, i.e. March 1, 2020 to August 31, 2020. The Corporation has estimated the said amount and made a provision in the financial statements for the year ended March 31, 2021. As on March 31, 2021, the Corporation holds a specific liability of ₹115 crore which is debited to interest income to meet its obligation towards refund of interest on interest to eligible borrowers as prescribed by the RBI.

53. The following disclosures are in accordance with Master Direction – Non-Banking Financial Company – Housing Finance Company (Reserve Bank) Directions, 2021 dated February 17, 2021 issued by the Reserve Bank of India.

Notes forming part of the standalone financial statements (Continued)

53.1 Regulatory ratios, limits and disclosures are based on Ind AS figures in accordance with RBI circular dated October 22, 2020 read with RBI circular dated March 13, 2020 relating to Implementation of Ind AS. Further, in view of RBI circular dated March 13, 2020 made applicable to Housing Finance Companies (HFC) with effect from October 22, 2020, figures for previous year is not comparable with the current year figures and few disclosures figures of closing balance of previous year may not match with opening balance of current year. The Disclosures for NPA referred in point no 53.5 Additional Disclosures correspond to non performing advances.

53.3.4.2 Exchange Traded Interest Rate (IR) Derivative

The Corporation has not entered into any exchange traded derivative.

53.3.4.3 Disclosures on Risk Exposure in Derivatives

A. Qualitative Disclosure

Financial Risk Management

The Corporation has to manage various risks associated with the lending business. These risks include liquidity risk, exchange risk, interest rate risk and counterparty risk.

The Financial Risk Management and Hedging Policy as approved by the Board sets limits for exposures on currency and other parameters. The Corporation manages its interest rate and currency risk in accordance with the guidelines prescribed therein.

Liquidity risk and Interest rate risks arising out of maturity mismatch of assets and liabilities are managed through regular monitoring of maturity profiles. The currency risk on the borrowings is actively managed mainly through a combination of principal only swaps, forward contracts, option contracts and dollar denominated assets. Counterparty risk is reviewed periodically to ensure that exposure to various counter parties is well diversified and is within the limits fixed by the Derivative Committee.

As a part of Asset Liability Management, the Corporation has entered into interest rate swaps wherein it has converted a portion of its fixed rate rupee liabilities into floating rate linked to various benchmarks.

Constituents of Hedge management framework

Financial Risk Management of the Corporation constitutes the Audit Committee, Asset Liability Committee (ALCO), Derivative Committee and the Risk management team.

The Corporation periodically monitors various counterparty risk and market risk limits, within the risk architecture and processes of the Corporation.

Hedging Policy

The Corporation has a Financial Risk Management policy and Hedging policy approved by the Board of Directors. For derivative contracts designated as hedges, the Corporation documents at inception, the relationship between the hedging instrument and hedged item. Hedge effectiveness is ascertained periodically on a forward looking basis and is reviewed by the Derivative Committee at each reporting period. Hedge effectiveness is measured by the degree to which changes in the fair value or cashflows of the hedged item that are attributed to the hedged risk are offset by changes in the fair value or cashflows of the hedging instrument.

Measurement and Accounting

All derivative contracts are recognised on the balance sheet and measured at fair value. Hedge accounting is applied to all the derivative instruments as per IND AS 109. Gain / loss arising on account of fair value changes are recognised in the Statement of Profit and Loss to the extent of ineffective portion of hedge instruments and hedged items. The gains / losses of effective portion of hedge instrument are offset against gain / losses of hedged items in Other Comprehensive Income.

The Corporation has entered into fair value hedges like interest rate swaps on fixed rate rupee liabilities as a part of the Asset Liability Management whereby a portion of the fixed rate liabilities are converted to floating rate. The Corporation has a mark to market loss of ₹ 77.57 crore on outstanding Fair value hedges.

Foreign exchange forward contracts outstanding at the Balance Sheet date, are recorded at fair value. The premium or discount arising at the inception of such forward exchange contract is amortised as expense or income over the life of the contract.

Notes forming part of the standalone financial statements (Continued)

The Corporation has entered into cashflow hedges to hedge currency risk on certain foreign currency loans and to cover future interest on foreign currency borrowings. Under the cashflow hedge, the hedging instrument is measured at fair value and any gain or loss that is determined to be an effective hedge is recognized in equity i.e., Cash flow Hedge reserve. The outstanding notional of Cash-flow hedges to cover currency risk on foreign currency loans and future interest on foreign currency borrowings is ₹ 16,387 crore.

Movements in the Cash flow hedge reserve are as follows (as per Ind AS Financials):-

Particulars	₹ in Crore	
	Current Year	Previous Year
Opening Balance - Debit balance	(180.59)	(222.45)
