Risk Factors

Enlisted below are risk factors as envisaged by the management of the Corporation along with the proposals/perceptions on how the management addresses these risks:

Internal Risks

Credit Risk: The business of lending carries the risk of default by borrowers

Any lending business is exposed to the risk of default by its borrowers. Lending for housing finance is the core business of the Corporation. Since inception there has been a strong emphasis on developing systematic credit appraisal techniques. The Corporation has a core team, which carefully monitors loan recoveries. The Corporation also closely follows industry developments where it has corporate loan exposures. Further, the guidelines issued by the National Housing Bank (NHB) regarding exposure norms and concentration of credit and investment help to diversify credit risk.

Market Risk: This risk arises as a result of interest rate volatility

Interest rate risk is inherent to the business of any financial institution. The Corporation endeavors to minimize this risk by predominantly linking interest rates on loans to a base which varies in accordance with movements in market rates. Interest rate, liquidity and foreign exchange risks are monitored and managed through active Asset Liability Management (ALM).

Asset Liability Management: The risks that arise out of mismatch of assets and liabilities

The Corporation broadly follows the "Asset Liability Management System for Housing Finance Companies – Guidelines" as defined by NHB. To further monitor market risk management systems, the Board of Directors of the Corporation has approved an ALM policy, which *inter alia* defines the Corporation's risk philosophy, specifies prudent gaps and tolerance limits and reporting systems. The Asset Liability Management Committee (ALCO), which comprises the Executive Directors and other senior management personnel, apprises the Board periodically on ALM issues.

Operational Risk: The risks that arise out of systemic issues within an organization

Operational risk is intrinsic to any business. The Corporation has instituted adequate internal control systems commensurate with the nature of its business and size of operations. The Internal Audit function is carried out by independent audit firms. All significant internal audit observations are reported to the Audit and Governance Committee of the Corporation.

External Risks

Regulatory Changes

These risks may arise if various concerned authorities amend the regulatory framework, which could impact the Corporation.

Risk of Competition

This risk may arise from existing players or new entrants in the business of housing finance. The Management believes that the Corporation can leverage on its vast experience as a pioneer of retail housing finance in India, its strong brand name, wide distribution network and quality customer service so as to sustain its position in the market.

General Risks

Investors are advised to read the risk factors carefully before taking an investment decision in this issue. For taking an investment decision, investors must rely on their own examination of the issue and this Shelf Disclosure Document, including the risks involved. The issue has not been recommended or approved by SEBI nor does SEBI guarantee the accuracy or adequacy of this Shelf Disclosure Document.
